Zreik M.M. *see* Radwan S.S., Zreik M.M. & Mulder J.L. 113

SUBJECT INDEX

Absidia anomala
Distribution of arachidonic acid among lipid classes during culture ageing of five Zygomycete species 113
Achlya bisexualis
Influence of monensin on the composition of the plasmalemma of *Achlya bisexualis* separated by free-flow electrophoresis 551
Acid soils
Release of complexing organic acids by rhizosphere fungi as a factor in Norway spruce yellowing in acidic soils 1367
Acremomium coenophialum
Multiple families of peptide synthetase genes from ergopeptine-producing fungi 429
Adenylate cyclase
Cytochemical localization of adenylate cyclase activity in the symbiotic protocorms of *Spiranthes sinensis* 105
Adoryphorus couloni
Metarhizium spore surface antigens are correlated with pathogenicity 57
Aerobiology
A century of British mycology 1
Spore dispersal – its role in ecology and disease: the British contribution to fungal aerobiology 641
Aflatoxins
A century of British mycology 1
Effect of butylated hydroxyanisole on intracellular components of aflatoxigenic strains of *Aspergillus flavus* and *Aspergillus parasiticus* 1256
Agaricus bisporus
Somatic recombination in the cultivated mushroom *Agaricus bisporus* 188
Intracellular infection of the cultivated mushroom *Agaricus bisporus* by the mycoparasite *Verticillium fungicola* var. *Fungicola* 1082
Air-spora
The occurrence of airborne *Didymella* spores in Edinburgh 213
Akanthomyces arachnophilus
Akanthomyces on spiders in Thailand 1065
Akanthomyces aranearum
Akanthomyces on spiders in Thailand 1065
Akanthomyces cinereus
Akanthomyces on spiders in Thailand 1065
Akanthomyces koratensis
Akanthomyces on spiders in Thailand 1065
Akanthomyces novoguineensis
Akanthomyces on spiders in Thailand 1065
Akanthomyces websteri
Akanthomyces on spiders in Thailand 1065
Amauroascus burundensis
Three new species of *Amauroascus* from tropical regions 343
Amauroascus cubensis
Three new species of *Amauroascus* from tropical regions 343
Amauroascus tropicalis
Three new species of *Amauroascus* from tropical regions 343
Aminopeptidase
Characterization of a novel phenylalanine-specific aminopeptidase from *Schizophyllum commune* 462
Amplified fragment length polymorphism
The use of AFLP fingerprinting for the detection of genetic variation in fungi 1107
Anastomosis groups
DNA fingerprinting probe specific to isolates of *Rhizoctonia solani* AG-3 467
Heterogeneity in electrophoretic karyotype within and between anastomosis groups of *Rhizoctonia solani* 789
Andromorphs
Spermatial states of fungi are andromorphs 1400
Anisostagma rotundatum
Anisostagma rotundata gen. et sp. nov., a lignicolous marine ascomycete from Swanemollen Harbour in Denmark 209
Anthracnose
Infection process and identity of hemibiotrophic anthracnose fungus (*Colletotrichum destructivum*) from cowpea (*Vigna unguiculata*) 1133
Antibiotic resistance
Inheritance of streptomycin and chloramphenicol resistance in *Phytophthora infestans*: evidence for co-segregation of mitochondrial DNA and streptomycin resistance 87
Antifungal activity
Effect of butylated hydroxyanisole on intracellular components of aflatoxigenic strains of *Aspergillus flavus* and *Aspergillus parasiticus* 1256
Aphanomyces cochlioides
A novel medium for the oosporogenesis of *Aphanomyces cochlioides* 936
Aphanomyces euteiches
Use of polyclonal antibodies to detect oospores of *Aphanomyces* 495
Aphyllophorales
A century of British mycology 1
Aquamarina speciosa
Fungi on *Juncus roemerianus*. New marine and terrestrial ascomycetes 393
Aquatic hyphomycetes
A century of British mycology 1
Arachidonic acid
Distribution of arachidonic acid among lipid classes during culture ageing of five Zygomycete species 113
Arbuscular mycorrhizas
The ecology of arbuscular mycorrhizas: a look back into the 20th century and a peek into the 21st 769
Armillaria mellea
Lethal effects of an electric field on *Armillaria mellea* 318
Purification of laccase II from *Armillaria mellea* and comparison of its properties with those of laccase I 1099
Armillaria ostoyae
Carbon allocation patterns in fungi in the presence of chitin in the external medium 1428
Arthrobotrys cystosporia
A new species of *Arthrobotrys* from China 527
Arthrobotrys obovata
A new species of *Arthrobotrys* from China 527
Arthrobotrys oligospora
Identification of nematode-trapping fungi using RFLP analysis of the PCR-amplified ITS region of ribosomal DNA 531
Arthrobotrys perpasta
A new species of *Arthrobotrys* from China 527
Arthroderma silverae
Arthroderma silverae sp. nov. and *Chrysosporium vallenarense*, keratinophilic fungi from arctic and montane habitats 195
Articulospora tetracladia
Infraspecific variation in two species of aquatic hyphomycetes assessed by RAPD analysis 831
Ascomycetes
Neolecta, a fruit-body-producing genus of the basal ascomycetes, as shown by SSU and LSU rDNA sequences 199
Ascomycete genetics: the part played by ascus segregation phenomena in our understanding of the mechanisms of recombination 1025

Ascospore appendages
Ultrastructure of ascospores of *Tunicatispora australiensis* 1247
Ascospore development
Ascus and ascospore morphogenesis 1281
Ascus development
Ascus and ascospore morphogenesis 1281
Aspergillosis
Medical mycology 1153
Aspergillus flavus
Effect of butylated hydroxyanisole on intracellular components of aflatoxigenic strains of *Aspergillus flavus* and *Aspergillus parasiticus* 1256
Aspergillus nidulans
Effect of culture conditions and induction strategies on production of human interleukin-6 by a recombinant *Aspergillus nidulans* strain 356
Characterization of the heat shock response in protoplasts of *Aspergillus nidulans* 1325
Effect of the microtubule inhibitor methyl benzimidazole-2-yl carbamate (MBC) on production and secretion of enzymes in *Aspergillus nidulans* 1375
Aspergillus niger
Adaptation of *Aspergillus niger* to acidic conditions and its relationship to salt stress and miconazole 869
Aspergillus parasiticus
Effect of butylated hydroxyanisole on intracellular components of aflatoxigenic strains of *Aspergillus flavus* and *Aspergillus parasiticus* 1256
Asteromella
Manipulation of infection levels of horizontally transmitted fungal endophytes in the field 827
Atta cephalotes
Microfungi in the fungus gardens of the leaf-cutting ant *Atta cephalotes*: a preliminary study 541
Atylosia scaraboides
New phytoparasitic hyphomycetes from the Terai belt of Uttar Pradesh, India 610
Ballistospore discharge
A century of British mycology 1
Ballistospore formation
Two kinds of ballistoconidia in the anamorph of *Tilletia setaria* 173
Banksia coccinea
Cryptodiaporthe melanocraspeda sp. nov. the cause of *Banksia coccinea* canker in South-western Australia 159
Basidiomycotina
Hyphal analysis of basidiomata 129
Beauveria bassiana
Screening of *Metarhizium* and *Beauveria* spp. conidia with exposure to simulated sunlight and a range of temperatures 31
Distribution and occurrence of four entomogenous fungi in Finland: effect of geographical location, habitat type and soil type 93
Beetles
Taxonomic notes on *Monoicomyces* with descriptions of two new species 1179
Benomyl
Evidence for a heterothallic mating system in *Tapesia acuformis* using benomyl sensitivity and esterase isoenzyme profiles 1227
Beta vulgaris
Studies on the life-cycle of *Polymyxa betae* in sugar beet roots 203
Betula pendula
Prosthemium asterosporum sp. nov., a coelomycete on twigs of *Betula pendula* 1243
Bicornispora exophiala
Bicornispora exophiala, a new genus and species of the Corneliales and its black yeast anamorph 500
Biocontrol
Screening of *Metarhizium* and *Beauveria* spp. conidia with exposure to simulated sunlight and a range of temperatures 31
Metarhizium spore surface antigens are correlated with pathogenicity 57
Biodegradation
Biotransformation and biosorption of pentachloronitrobenzene by fungal mycelium 948
Biological control
A century of British mycology 1
Infection process of *Colletotrichum gloeosporioides* f. sp. *malvae* on Malvaceae weeds 165
Use of RAPD analysis to trace the origin of the weevil pathogen *Zoophthora phytonomi* in North America 349
The role of proteinase VCP1 produced by the nematophagous *Verticillium chlamydosporium* in the infection process of nematode eggs 421
Cercospora and similar fungi on *Heliotropium* weeds 815
Trichoderma: a review of biology and systematics of the genus 923
The effect of diffusible metabolites of *Trichoderma harzianum* on *in vitro* interactions between basidiomycete isolates at two different temperature regimes 1454
Biotechnology
Trichoderma: a review of biology and systematics of the genus 923
Biscogniauxia anceps
Biscogniauxia anceps comb. nov. and *Vivantia guadalupensis* gen. et sp. nov. 669
Biscogniauxia mucigera
Two new *Biscogniauxia* species from Papua New Guinea 702
Biscogniauxia waitpela
Two new *Biscogniauxia* species from Papua New Guinea 702
Black yeasts
Relationships within the black yeast genus *Exophiala* based on ITS1 sequences 1265
Boletinus cavipes
Carbon allocation patterns in fungi in the presence of chitin in the external medium 1428
Botryodiplodia theobromae
Post-harvest spoilage of mango (*Mangifera indica*) by *Botryodiplodia theobromae* 27
Development of conidiomata in *Botryodiplodia theobromae* 1383
Botryotinia fuckeliana
Genetic studies of the phytopathogenic fungus *Botryotinia fuckeliana* (*Botrytis cinerea*) by analysis of ordered tetrads 620
Botrytis allii
Changes in conidial morphology and germinability of *Botrytis allii* and *Penicillium hirsutum* in response to low-temperature incubation 591
Botrytis cinerea
Infection mechanisms of *Botrytis* species: pre-penetration and pre-infection processes of dry and wet conidia 277
Genetic studies of the phytopathogenic fungus *Botryotinia fuckeliana* (*Botrytis cinerea*) by analysis of ordered tetrads 620
Botrytis fabae
Infection mechanisms of *Botrytis* species: pre-penetration and pre-infection processes of dry and wet conidia 277
Boubovia ascoboloides
Delimitation of *Bouvonia* and *Pulvinula* 193
Boubovia nicholsonii
Delimitation of *Bouvonia* and *Pulvinula* 193
Boubovia subprolata
Delimitation of *Bouvonia* and *Pulvinula* 193
Brachydesmiella anthostomelloidea
Brachydesmiella anthostomelloidea, a new species of dematiaceous hyphomycete from Australia 1364
Brunchorstia pinea
Genetic differentiation within the European race of *Gremmeniella abietina* 49
Byssonectria
Notes on British species of *Byssonectria* 881
Calcium
Effects of calcium on germination and further zoospore release from zoospore cysts of *Phytophthora parasitica* 1498
Calcofluor white
Efficient root infection with single resting spores of *Plasmodiophora brassicae* 855
Candida albicans
Chitinase activities from yeast and hyphal cells of *Candida albicans* 321
Purification and characterization of cyclic AMP-dependent protein kinase from *Candida albicans* 625
Candida guillermondii
Yeast biota of the red imported fire ant 740
Candida lipolytica
Yeast biota of the red imported fire ant 740
Candida parapsilosis
Yeast biota of the red imported fire ant 740
Candida rugosa
Yeast biota of the red imported fire ant 740
Candidosis
Medical mycology 1153
Cankers
Cryptodiaporthe melanocraspeda sp. nov. the cause of *Banksia coccinea* canker in South-western Australia 159
Population structure of the pitch canker pathogen, *Fusarium subglutinans* f. sp. *pini*, in California 850

Carbon nutrition
Carbon allocation patterns in fungi in the presence of chitin in the external medium 1428
Caryota urens
Corynesporasca caryotae gen. et sp. nov. with a *Corynespora* anamorph, and the family Corynesporascaceae 783
Catenaria anguillulae
Pathogenicity and development of *Catenaria anguillulae* on some nematodes 1204
Ceratobasidium cornigerum
Cytochemical localization of adenylate cyclase activity in the symbiotic protocorms of *Spiranthes sinensis* 105
Ceratocystis eucalypti
Ceratocystis eucalypti sp. nov., a vascular stain fungus from eucalypts in Australia 571
Ceratorhiza
A comparative taxonomic study of *Rhizoctonia sensu lato* employing morphological, ultrastructural and molecular methods 1117
Cerato-ulmin
Isolation and characterization of non cerato-ulmin producing laboratory induced mutants of *Ophiostoma novo-ulmi* 661
Cercospora aerva-lanatae
New species of *Mycovellosiella* and *Cercospora* from India 295
Cercospora deightonii
Cercospora and similar fungi on *Heliotropium* weeds 815
Cercospora heliotropii-bocconi
Cercospora and similar fungi on *Heliotropium* weeds 815
Cercospora heliotropiicola
Cercospora and similar fungi on *Heliotropium* weeds 815
Cercospora saximontanensis
Two leaf pathogens of *Ribes* spp. in North America, *Quasiphloeospora saximontanensis* and *Phloeosporella ribes* 979
Cercospora septoriopsis
Two leaf pathogens of *Ribes* spp. in North America, *Quasiphloeospora saximontanensis* and *Phloeosporella ribes* 979
Cercospora taurica
Cercospora and similar fungi on *Heliotropium* weeds 815
Chaetomium floriforme
A new *Chaetomium* from Thailand 1005
Chalara angustata
Chalara angustata sp. nov. from roots of *Quercus petraea* and *Quercus robur* 1112
Chalara eucalypti
Ceratocystis eucalypti sp. nov., a vascular stain fungus from eucalypts in Australia 571
Cheilymenia cadaverina
Notes on British species of *Cheilymenia* 361
Cheilymenia cinnabarina
Notes on British species of *Cheilymenia* 361
Cheilymenia coprinaria
Notes on British species of *Cheilymenia* 361
Cheilymenia cornubiensis
Notes on British species of *Cheilymenia* 361
Cheilymenia crucipula
Notes on British species of *Cheilymenia* 361
Cheilymenia erecta
Notes on British species of *Cheilymenia* 361
Cheilymenia fibrillosa
Notes on British species of *Cheilymenia* 361
Cheilymenia fimicola
Notes on British species of *Cheilymenia* 361
Cheilymenia luteopallens
Notes on British species of *Cheilymenia* 361
Cheilymenia pulcherrima
Notes on British species of *Cheilymenia* 361
Cheilymenia raripila
Notes on British species of *Cheilymenia* 361
Cheilymenia rubra
Notes on British species of *Cheilymenia* 361
Cheilymenia stercoria
Notes on British species of *Cheilymenia* 361
Cheilymenia subhirsuta
Notes on British species of *Cheilymenia* 361
Cheilymenia theleboloides
Notes on British species of *Cheilymenia* 361
Cheilymenia vitellina
Notes on British species of *Cheilymenia* 361
Chestnut blight
Distribution and diversity of vegetative compatibility types in subpopulations of *Cryphonectria parasitica* in Italy 1087
Chitin
Changes in chitin deposition accompany runner hypha branching of *Gaeumannomyces graminis* in culture 444
Carbon allocation patterns in fungi in the presence of chitin in the external medium 1428
Chitinase
Chitinase activities from yeast and hyphal cells of *Candida albicans* 321
Chloramphenicol resistance
Inheritance of streptomycin and chloramphenicol resistance in *Phytophthora infestans*: evidence for co-segregation of mitochondrial DNA and streptomycin resistance 87
Chondrostereum purpureum
Assessment of genetic variation within *Chondrostereum purpureum* from Quebec by random amplified polymorphic DNA analysis 151
Chrysosporium vallenarense
Arthroderma silverae sp. nov. and *Chrysosporium vallenarense*, keratinophilic fungi from arctic and montane habitats 195
Ciliaria binominata
Revision of British taxa currently referred to *Ciliaria* and *Lachnea* 939
Ciliaria carneosanguinea
Revision of British taxa currently referred to *Ciliaria* and *Lachnea* 939
Ciliaria caudata
Revision of British taxa currently referred to *Ciliaria* and *Lachnea* 939
Ciliaria citrina
Revision of British taxa currently referred to *Ciliaria* and *Lachnea* 939
Ciliaria confusa
Revision of British taxa currently referred to *Ciliaria* and *Lachnea* 939
Ciliaria contorta
Revision of British taxa currently referred to *Ciliaria* and *Lachnea* 939
Ciliaria hirtococcinea
Revision of British taxa currently referred to *Ciliaria* and *Lachnea* 939
Ciliaria lapidaria
Revision of British taxa currently referred to *Ciliaria* and *Lachnea* 939
Ciliaria phillipsii
Revision of British taxa currently referred to *Ciliaria* and *Lachnea* 939
Ciliaria schizospora
Revision of British taxa currently referred to *Ciliaria* and *Lachnea* 939
Ciliaria setosa
Revision of British taxa currently referred to *Ciliaria* and *Lachnea* 939
Ciliochora calabrica
Ciliochora calabrica sp. nov. isolated from *Fagus sylvatica* in Italy 405
Cladosporium fulvum
The use of AFLP fingerprinting for the detection of genetic variation in fungi 1107
Clastoderma debaryanum
The genus *Clastoderma*: taxonomic evaluation and infraspecific variation of *C. debaryanum* 601
Clastoderma dictyosporum
The genus *Clastoderma*: taxonomic evaluation and infraspecific variation of *C. debaryanum* 601
Claviceps purpurea
Multiple families of peptide synthetase genes from ergopeptine-producing fungi 429
Coccothrinax miraguama
Dictyochaeta minutissima sp. nov. on *Coccothrinax miraguama* from cuba 687
Coleophoma empetri
Coleophoma fusiformis sp. nov. from leaves of *Rhododendron*, with notes on the genus *Coleophoma* 943
Coleophoma fusiformis
Coleophoma fusiformis sp. nov. from leaves of *Rhododendron*, with notes on the genus *Coleophoma* 943
Colletotrichum destructivum
Infection process and identity of hemibiotrophic anthracnose fungus (*Colletotrichum destructivum*) from cowpea (*Vigna unguiculata*) 1133
Colletotrichum gloeosporioides
Infection process of *Colletotrichum gloeosporioides* f. sp. *malvae* on Malvaceae weeds 165
Compatitibility types
Population structure of the pitch canker pathogen, *Fusarium subglutinans* f. sp. *pini*, in California 850
Conidia
Detection of phialoconidia of *Trichoderma harzianum* in peat-bran by monoclonal antibody-based enzyme-linked immunosorbent assay 217

Conidial germination
Infection process of *Colletotrichum gloeosporioides* f. sp. *malvae* on Malvaceae weeds 165
Changes in conidial morphology and germinability of *Botrytis allii* and *Penicillium hirsutum* in response to low-temperature incubation 591
Conidial morphology
Changes in conidial morphology and germinability of *Botrytis allii* and *Penicillium hirsutum* in response to low-temperature incubation 591
Conidial ontogeny
A century of British mycology 1
Conidiogenesis
Development of conidiomata in *Botryodiplodia theobromae* 1383
Coniophora puteana
The effect of diffusible metabolites of *Trichoderma harzianum* on *in vitro* interactions between basidiomycete isolates at two different temperature regimes 1454
Conoplea abietina
Rhinocladium pulchrum, a new record for Brazil and new combinations in *Rhinocladium* 244
Conoplea mangenotii
Rhinocladium pulchrum, a new record for Brazil and new combinations in *Rhinocladium* 244
Coprinus cinereus
Gravimorphogenesis in agarics 257
Coprophilous fungi
Podosordaria australiensis sp. nov., a new xylariaceous ascomycete on wallaby dung from northern Australia 1505
Cordyceps irangiensis
Cordyceps myrmecophila-like fungi infecting ants in the leaf litter of tropical forest in Thailand 613
Cordyceps myrmecophila
Cordyceps myrmecophila-like fungi infecting ants in the leaf litter of tropical forest in Thailand 613
Corollospora besarispora
Corollospora besarispora, a new arenicolous marine fungus from Malaysia 1259
Correction
Evolutionary relationships among *Phytophthora* species deduced from rDNA sequence analysis 1218
Cortinarius argutus
Cortinarius, subgenus *Phlegmacium*, section *Phlegmacium* in Europe. A study of character variation and ecology including a numerical analysis of the *C. argutus* complex 471
Cortinarius (Phlegmacium)
Cortinarius, subgenus *Phlegmacium*, section *Phlegmacium* in Europe. A study of character variation and ecology including a numerical analysis of the *C. argutus* complex 471
Coryneliales
Bicornispora exophiala, a new genus and species of the Coryneliales and its black yeast anamorph 500
Corynespora
Corynesporasca caryotae gen. et sp. nov. with a *Corynespora* anamorph, and the family Corynesporascaceae 783
Corynesporasca caryotae
Corynesporasca caryotae gen. et sp. nov. with a *Corynespora* anamorph, and the family Corynesporascaceae 783
Corynesporascaceae
Corynesporasca caryotae gen. et sp. nov. with a *Corynespora* anamorph, and the family Corynesporascaceae 783
Cryphonectria parasitica
Distribution and diversity of vegetative compatibility types in sub-populations of *Cryphonectria parasitica* in Italy 1087
Cryptococcosis
Medical mycology 1153
Cryptodiaporthe melanocraspeda
Cryptodiaporthe melanocraspeda sp. nov. the cause of *Banksia coccinea* canker in South-western Australia 159
Cryptophiale multiseptata
Cryptophiale multiseptata, sp. nov. from submerged wood in Australia, and keys to the genus 999
Culture
In vitro mass-production of the arbuscular mycorrhizal fungus, *Glomus versiforme*, associated with Ri T-DNA transformed carrot roots 1237
Cunninghamella elegans
Distribution of arachidonic acid among lipid classes during culture ageing of five Zygomycete species 113
Cyclodomus aequatoriensis
Fungi associated with leaf spots of palms. *Maculatifrondis aequatoriensis* gen. et sp. nov., with *Cyclodomus* anamorph, and *Myelosperma parasitica* sp. nov. 1509
Cytochemical determination
Cytochemical and immunocytochemical investigation of the mycoparasitic interaction between *Stachybotrys elegans* and its host *Rhizoctonia solani* (AG-3) 79
Cytochemical localization of adenylate cyclase activity in the symbiotic protocorms of *Spiranthes sinensis* 105
Cytoplea hysterioides
Roussoëlla, an ascomycete genus of uncertain relationships with a *Cytoplea* anamorph 1522
Dactylaria endophytica
Dactylaria endophytica sp. nov., an endophyte from leaves of *Prunus lusitanica* 524
Dactylella tenuifusaria
Dactylella tenuifusaria sp. nov., a rhizopod-capturing hyphomycete 236
Debaryomyces hansenii
Yeast biota of the red imported fire ant 740
2-deoxy-D-Glucose tolerance
Detection of highly productive strains of *Pleurotus ostreatus* by their tolerance to 2-deoxy-D-glucose in starch-based media 455
Development
Effect of polyamines and polyamine biosynthesis inhibitors on spore germination and hyphal growth of *Glomus mosseae* 597
Dextranase
Purification and some properties of an extracellular dextranase from *Penicillium notatum* 681
Dicranophora fulva
Dicranophora fulva, a rare mucoraceous fungus growing on boletes 583
Dictyochaeta minutissima
Dictyochaeta minutissima sp. nov. on *Coccothrinax miraguama* from cuba 687
Didymella exitialis
The occurrence of airborne *Didymella* spores in Edinburgh 213
Diplodina melanocraspeda
Cryptodiaporthe melanocraspeda sp. nov. the cause of *Banksia coccinea* canker in South-western Australia 159
Disciotis venosa
DNA polymorphism in morels: PCR/RFLP analysis of the ribosomal DNA spacers and microsatellite-primed PCR 63
Discosia artocreas
A reassessment of some *Discosia* species 287
Discosia poonensis
A reassessment of some *Discosia* species 287
Discosia punicea
A reassessment of some *Discosia* species 287
Discosia tenzingii
A reassessment of some *Discosia* species 287
Discula quercina
Manipulation of infection levels of horizontally transmitted fungal endophytes in the field 827
Distribution
Distribution and occurrence of four entomogenous fungi in Finland: effect of geographical location, habitat type and soil type 93
A pluralistic approach in the study of *Pleurotus* species with emphasis on compatibility and physiology of the European morphotaxa 717
Distribution and diversity of vegetative compatibility types in sub-populations of *Cryphonectria parasitica* in Italy 1087
DNA
DNA polymorphism in morels: PCR/RFLP analysis of the ribosomal DNA spacers and microsatellite-primed PCR 63
The use of AFLP fingerprinting for the detection of genetic variation in fungi 1107
DNA probes
DNA fingerprinting probe specific to isolates of *Rhizoctonia solani* AG-3 467
Quantification of *Gaeumannomyces graminis* var. *tritici* in infected roots and soil using slot-blot hybridization 962
Detection and identification of *Laccaria* species using a repeated DNA sequence from *Laccaria proxima* 1515
Drechslera campanulata
Growth and sporulation of *Pyrenophora semeniperda in vitro*: effects of culture media, temperature and pH 311
Drechslera litsae
Two new hyphomycetes from India 1194
Dutch elm disease
Isolation and characterization of non cerato-ulmin producing laboratory induced mutants of *Ophiostoma novo-ulmi* 661

Differential production of extracellular laccase in the Dutch elm disease pathogens *Ophiostoma ulmi* and *O. novo-ulmi* 1060

Ecology

Cortinarius, subgenus *Phlegmacium*, section *Phlegmacium* in Europe. A study of character variation and ecology including a numerical analysis of the *C. argutus* complex 471

The ecology of arbuscular mycorrhizas: a look back into the 20th century and a peek into the 21st 769

The xylariaceous way of life 897

Ectomycorrhizas

Polyamine biosynthesis in the ectomycorrhizal fungus *Paxillus involutus* exposed to lead 486

Utilization of inorganic and organic nitrogen sources by high-subalpine ectomycorrhizal fungi of *Pinus cembra* in pure culture 989

Variations in symbiotic efficiency, phenotypic characters and ploidy level among different isolates of the ectomycorrhizal basidiomycete *Laccaria bicolor* strain S 238 1315

Detection and identification of *Laccaria* species using a repeated DNA sequence from *Laccaria proxima* 1515

Electric field

Lethal effects of an electric field on *Armillaria mellea* 318

ELISA

Metarhizium spore surface antigens are correlated with pathogenicity 57

Endomycorrhizas

Cytochemical localization of adenylate cyclase activity in the symbiotic protocorms of *Spiranthes sinensis* 105

Properties of invertases in mycelium of *Hymenoscyphus ericae* and in endomycorrhizal association with cranberry seedlings 1197

Endophytes

Dactylaria endophytica sp. nov., an endophyte from leaves of *Prunus lusitanica* 524

Microfungi in the fungus gardens of the leaf-cutting ant *Atta cephalotes*: a preliminary study 541

Corynesporasca caryotae gen. et sp. nov. with a *Corynespora* anamorph, and the family Corynesporascaceae 783

Manipulation of infection levels of horizontally transmitted fungal endophytes in the field 827

Entomogenous fungi

Screening of *Metarhizium* and *Beauveria* spp. conidia with exposure to simulated sunlight and a range of temperatures 31

Metarhizium spore surface antigens are correlated with pathogenicity 57

Distribution and occurrence of four entomogenous fungi in Finland: effect of geographical location, habitat type and soil type 93

Use of RAPD analysis to trace the origin of the weevil pathogen *Zoophthora phytonomi* in North America 349

Cordyceps myrmecophila-like fungi infecting ants in the leaf litter of tropical forest in Thailand 613

Protoplast plasma membrane glycoproteins in two species of entomophthoralean fungi 1094

Taxonomic notes on *Monoicomyces* with descriptions of two new species 1179

Double-stranded RNA and isometric virus-like particles in the entomopathogenic fungus *Metarhizium anisopliae* 1468

Entomophaga aulicae

Protoplast plasma membrane glycoproteins in two species of entomophthoralean fungi 1094

Entomophaga maimaiga

Protoplast plasma membrane glycoproteins in two species of entomophthoralean fungi 1094

Enzyme secretion

Effect of the microtubule inhibitor methyl benzimidazole-2-yl carbamate (MBC) on production and secretion of enzymes in *Aspergillus nidulans* 1375

Enzyme-linked immunosorbent assay

Detection of phialoconidia of *Trichoderma harzianum* in peat-bran by monoclonal antibody-based enzyme-linked immunosorbent assay 217

Epitype

An epitype specimen for *Pleurotus ostreatus* 229

Epulorhiza

A comparative taxonomic study of *Rhizoctonia sensu lato* employing morphological, ultrastructural and molecular methods 1117

Ergopeptines

Multiple families of peptide synthetase genes from ergopeptine-producing fungi 429

Ergosterol

The characterization of some lipid metabolites of *Gloeophyllum odoratum* grown *in vitro* 23

Escherichia coli

Evidence for the growth of *Plasmodiophora brassicae in vitro* 535

Eucalyptus globoidea

Ceratocystis eucalypti sp. nov., a vascular stain fungus from eucalypts in Australia 571

Eucalyptus sieberi

Ceratocystis eucalypti sp. nov., a vascular stain fungus from eucalypts in Australia 571

Evolution

Evolutionary relationships among *Phytophthora* species deduced from rDNA sequence analysis 437

Exophiala

Bicornispora exophiala, a new genus and species of the Corneliales and its black yeast anamorph 500

Relationships within the black yeast genus *Exophiala* based on ITS1 sequences 1265

Eyespot

Tapesia acuformis as a causal agent of eyespot disease of cereals and evidence for a heterothallic mating system using molecular markers 1219

Fagus sylvatica

Ciliochora calabrica sp. nov. isolated from *Fagus sylvatica* in Italy 405

Fish pathogens

Production and preliminary characterization of monoclonal antibodies to *Saprolegnia parasitica* 489

Flammulina velutipes

Gravimorphogenesis in agarics 257

Fomitiporia

On the species complexes within *Phellinus*: *Fomitiporia* revisited 1459

Fungal viruses

A century of British mycology 1

Fusarium

Frequency of isolation and the pathogenicity of *Fusarium* species associated with roots of healthy cotton seedlings 747

Fusarium solani

Use of nitrate non-utilizing mutants to study vegetative incompatibility in *Fusarium solani* (*Nectria haematococca*) especially members of mating populations I, V and VI 1075

Fusarium subglutinans

Population structure of the pitch canker pathogen, *Fusarium subglutinans* f. sp. *pini*, in California 850

Gaeumannomyces graminis

Group I introns in 26S rRNA genes of *Gaeumannomyces graminis* as possible indicators of host specificity of *G. graminis* varieties 337

Changes in chitin deposition accompany runner hypha branching of *Gaeumannomyces graminis* in culture 444

Quantification of *Gaeumannomyces graminis* var. *tritici* in infected roots and soil using slot-blot hybridization 962

Genetics

Multiple families of peptide synthetase genes from ergopeptine-producing fungi 429

Genetic studies of the phytopathogenic fungus *Botryotinia fuckeliana* (*Botrytis cinerea*) by analysis of ordered tetrads 620

Ascomycete genetics: the part played by ascus segregation phenomena in our understanding of the mechanisms of recombination 1025

Genotypic variation

Genetic differentiation within the European race of *Gremmeniella abietina* 49

Assessment of genetic variation within *Chondrostereum purpureum* from Quebec by random amplified polymorphic DNA analysis 151

Variability of nuclear and mitochondrial ribosomal DNA of a truffle species (*Tuber aestivum*) 547

Genetic variability in wild populations of *Mycena rosea* 753

Heterogeneity in electrophoretic karyotype within and between anastomosis groups of *Rhizoctonia solani* 789

PCR-based molecular discrimination of *Verticillium chlamydosporium* isolates 801

The use of AFLP fingerprinting for the detection of genetic variation in fungi 1107

Geopora arenicola

Notes on British species of *Geopora* 72

Geopora arenosa

Notes on British species of *Geopora* 72

Geopora cervina

Notes on British species of *Geopora* 72

Geopora foliacea

Notes on British species of *Geopora* 72

Geopora sepulta

Notes on British species of *Geopora* 72

Geopora sumneriana

Notes on British species of *Geopora* 72

Geopora tenuis
Notes on British species of *Geopora* 72
Gloeophyllum odoratum
The characterization of some lipid metabolites of *Gloeophyllum odoratum* grown *in vitro* 23
Glomus intraradices
Enhanced hyphal growth and spore production of the arbuscular mycorrhizal fungus *Glomus intraradices* in an *in vitro* system in the absence of host roots 328
Glomus mosseae
Effect of polyamines and polyamine biosynthesis inhibitors on spore germination and hyphal growth of *Glomus mosseae* 597
Glomus versiforme
In vitro mass-production of the arbuscular mycorrhizal fungus, *Glomus versiforme*, associated with Ri T-DNA transformed carrot roots 1237
Glycoproteins
Protoplast plasma membrane glycoproteins in two species of entomophthoralean fungi 1094
Glyphosate
Identification and role of *Pythium* species as glyphosate synergists on bean (*Phaseolus vulgaris*) grown in different soils 971
Assessment of host specificity among different species of glyphosate synergistic *Pythium* 1445
Gonatophragmium kuanense
A new species of *Gonatophragmium* from the forest flora of the Indian subcontinent 1263
Gravimorphogenesis
Gravimorphogenesis in agarics 257
Gremmeniella abietina
Genetic differentiation within the European race of *Gremmeniella abietina* 49
Griseofulvin
A century of British mycology 1
Growth
Evidence for the growth of *Plasmodiophora brassicae in vitro* 535
Effect of polyamines and polyamine biosynthesis inhibitors on spore germination and hyphal growth of *Glomus mosseae* 597
Adaptation of *Aspergillus niger* to acidic conditions and its relationship to salt stress and miconazole 869
Carbon allocation patterns in fungi in the presence of chitin in the external medium 1428
Growth factors
Growth and sporulation of *Pyrenophora semeniperda in vitro*: effects of culture media, temperature and pH 311
Guignardia bidwellii
The ontogeny of peritheia in *Guignardia bidwellii* 875
Gyromitra esculenta
DNA polymorphism in morels: PCR/RFLP analysis of the ribosomal DNA spacers and microsatellite-primed PCR 63
Halosphaeriaceae
Anisostagma rotundata gen. et sp. nov., a lignicolous marine ascomycete from Swanemollen Harbour in Denmark 209
Hapsidascus hadrus
Anisostagma rotundata gen. et sp. nov., a lignicolous marine ascomycete from Swanemollen Harbour in Denmark 209
Heat shock proteins
Characterization of the heat shock response in protoplasts of *Aspergillus nidulans* 1325
Heat shock response
Characterization of the heat shock response in protoplasts of *Aspergillus nidulans* 1325
Heavy metal tolerance
Toxic element filtering in *Rhizopogon roseolus/Pinus sylvestris* mycorrhizas collected from calamine dumps 16
Polyamine biosynthesis in the ectomycorrhizal fungus *Paxillus involutus* exposed to lead 486
Heavy metals
Inhibition of H^+ efflux from *Saccharomyces cerevisiae* by insoluble metal phosphates and protection by calcium and magnesium: inhibitory effects a result of soluble metal cations? 707
Helicoon gigantisporum
Helicoon gigantisporum, sp. nov. and an amended key to the genus 1485
Heliotropium
Cercospora and similar fungi on *Heliotropium* weeds 815
Heliscus lugdunensis
Infraspecific variation in two species of aquatic hyphomycetes assessed by RAPD analysis 831
Hendersonia phormii
Kirramyces phormii comb. nov. from leaves of *Phormium* 373
Heterobasidion annosum
Carbon allocation patterns in fungi in the presence of chitin in the external medium 1428
The effect of diffusible metabolites of *Trichoderma harzianum* on *in vitro* interactions between basidiomycete isolates at two different temperature regimes 1454
Heterologous proteins
Effect of culture conditions and induction strategies on production of human interleukin-6 by a recombinant *Aspergillus nidulans* strain 356
Histology
Ultrastructural and histochemical studies on mycelial germination of sclerotia of *Sclerotinia minor* 561
Hormodendrum negronii
Relationships within the black yeast genus *Exophiala* based on ITS1 sequences 1265
Host pathogen relationships
Group I introns in 26S rRNA genes of *Gaeumannomyces graminis* as possible indicators of host specificity of *G. graminis* varieties 337
Assessment of host specificity among different species of glyphosate synergistic *Pythium* 1445
Humicola
A new *Chaetomium* from Thailand 1005
Hymenoscyphus ericae
Properties of invertases in mycelium of *Hymenoscyphus ericae* and in endomycorrhizal association with cranberry seedlings 1197
Hymenostilbe aurantiaca
Cordyceps myrmecophila-like fungi infecting ants in the leaf litter of tropical forest in Thailand 613
Hypera punctata
Use of RAPD analysis to trace the origin of the weevil pathogen *Zoophthora phytonomi* in North America 349
Hyphal analysis
A century of British mycology 1
Hyphal analysis of basidiomata 129
Hyphal differentiation
Changes in chitin deposition accompany runner hypha branching of *Gaeumannomyces graminis* in culture 444
Hyphal extension
Enhanced hyphal growth and spore production of the arbuscular mycorrhizal fungus *Glomus intraradices* in an *in vitro* system in the absence of host roots 328
Influence of monensin on the composition of the plasmalemma of *Achlya bisexualis* separated by free-flow electrophoresis 551
Hypogeal fungi
Factors affecting yield of *Tuber melanosporum* in a *Quercus ilex* plantation in southern France 1176
Hyponectria adenostomatis
Systematics and diversity of the Phyllachoraceae associated with Rosaceae, with a monograph of the genus *Polystigma* 1409
Immunofluorescence
Infection mechanisms of *Botrytis* species: pre-penetration and pre-infection processes of dry and wet conidia 277
Inermisia
Notes on British species of *Byssonectria* 881
Infection
The role of proteinase VCP1 produced by the nematophagous *Verticillium chlamydosporium* in the infection process of nematode eggs 421
Manipulation of infection levels of horizontally transmitted fungal endophytes in the field 827
Infection process and identity of hemibiotrophic anthracnose fungus (*Colletotrichum destructivum*) from cowpea (*Vigna unguiculata*) 1133
Infection mechanisms
Infection mechanisms of *Botrytis* species: pre-penetration and pre-infection processes of dry and wet conidia 277
Insect association
Yeast biota of the red imported fire ant 740
Interaction
Cellular interaction between the saprotroph *Phlebia gigantea* and non-suberised roots of *Picea abies* 409
Intersterility groups
A pluralistic approach in the study of *Pleurotus* species with emphasis on compatibility and physiology of the European morphotaxa 717
Invertase
Properties of invertases in mycelium of *Hymenoscyphus ericae* and in endomycorrhizal association with cranberry seedlings 1197
Ischnoderma benzionum
The effect of diffusible metabolites of *Trichoderma harzianum* on *in vitro* interactions between basidiomycete isolates at two different temperature regimes 1454

Isoenzyme analysis
Genetic variability in wild populations of *Mycena rosea* 753
Evidence for a heterothallic mating system in *Tapesia acuformis* using benomyl sensitivity and esterase isoenzyme profiles 1227
Isothea
Systematics and diversity of the Phyllachoraceae associated with Rosaceae, with a monograph of the genus *Polystigma* 1409
Iwilsoniella rotunda
Anisostagma rotundata gen. et sp. nov., a lignicolous marine ascomycete from Swanemollen Harbour in Denmark 209
Jessenia bataua
A new species of *Palmicola* from Ecuador 714
Juncus roemerianus
Fungi on *Juncus roemerianus*. New marine and terrestrial ascomycetes 393
Karyotypes
Heterogeneity in electrophoretic karyotype within and between anastomosis groups of *Rhizoctonia solani* 789
Keissleriella rara
Fungi on *Juncus roemerianus*. New marine and terrestrial ascomycetes 393
Keratinophilic fungi
Arthroderma silverae sp. nov. and *Chrysosporium vallenarense*, keratinophilic fungi from arctic and montane habitats 195
Three new species of *Amauroascus* from tropical regions 343
Keys
The genus *Melanocarpus* 75
Notes on British species of *Octospora* 175
Delimitation of *Bouvonia* and *Pulvinula* 193
Anisostagma rotundata gen. et sp. nov., a lignicolous marine ascomycete from Swanemollen Harbour in Denmark 209
Notes on British species of *Cheilymenia* 361
Kirramyces phormii comb. nov. from leaves of *Phormium* 373
Notes on British records of *Lasiobolus* 737
Notes on British species of *Trichophaea* 798
Notes on British species of *Scutellinia* 859
Notes on British species of *Pulvinula*, with two newly recorded species 883
Coleophoma fusiformis sp. nov. from leaves of *Rhododendron*, with notes on the genus *Coleophoma* 943
Cryptophiale multiseptata, sp. nov. from submerged wood in Australia, and keys to the genus 999
Akanthomyces on spiders in Thailand 1065
Taxonomic notes on *Monoicomyces* with descriptions of two new species 1179
Ramoconidiifera, a new genus of hyphomycetes from Argentina with cheiroid conidia 1337
Systematics and diversity of the Phyllachoraceae associated with Rosaceae, with a monograph of the genus *Polystigma* 1409
Helicoon gigantisporum, sp. nov. and an amended key to the genus 1485
In vivo and *in vitro* studies of three new species of *Trimmatostroma* associated with sooty spots of the mangrove *Aegiceras corniculatum* in Hong Kong 1489
Kirramyces hebes
Revision of *Septoria* species on *Hebe* and *Veronica* and description of *Kirramyces hebes* sp. nov. 1207
Kirramyces phormii
Kirramyces phormii comb. nov. from leaves of *Phormium* 373
Laboulbeniales
Taxonomic notes on *Monoicomyces* with descriptions of two new species 1179
Laccaria bicolor
Variations in symbiotic efficiency, phenotypic characters and ploidy level among different isolates of the ectomycorrhizal basidiomycete *Laccaria bicolor* strain S 238 1315
Laccaria proxima
Detection and identification of *Laccaria* species using a repeated DNA sequence from *Laccaria proxima* 1515
Laccase
Differential production of extracellular laccase in the Dutch elm disease pathogens *Ophiostoma ulmi* and *O. novo-ulmi* 1060
Purification of laccase II from *Armillaria mellea* and comparison of its properties with those of laccase I 1099
Lachnea argillacea
Revision of British taxa currently referred to *Ciliaria* and *Lachnea* 939
Lachnea caerulea
Revision of British taxa currently referred to *Ciliaria* and *Lachnea* 939
Lachnea erinacea
Revision of British taxa currently referred to *Ciliaria* and *Lachnea* 939
Lachnea hybrida
Revision of British taxa currently referred to *Ciliaria* and *Lachnea* 939
Lachnea lojkaeana
Revision of British taxa currently referred to *Ciliaria* and *Lachnea* 939
Lamprospora crec'hqueraultii
Oviascom, a new genus of Otideaceae 102
Lasiobolus ciliatus
Notes on British records of *Lasiobolus* 737
Lasiobolus cuniculi
Notes on British records of *Lasiobolus* 737
Lasiobolus macrotrichus
Notes on British records of *Lasiobolus* 737
Leaf fungi
Kirramyces phormii comb. nov. from leaves of *Phormium* 373
Dactylaria endophytica sp. nov., an endophyte from leaves of *Prunus lusitanica* 524
New species of *Mycovellosiella* associated with foliar spots in Nepal 689
Leaf spot disease
New species of *Mycovellosiella* and *Cercospora* from India 295
New species of *Pseudocercospora* causing leaf spots of forest plants in Nepal 1129
New species of *Mycovellosiella* from North-Eastern Uttar Pradesh, India 1333
Some new hyphomycetes associated with leaf spots of forest plants in Madhya Pradesh, India 1388
Fungi associated with leaf spots of palms. *Maculatifrondis aequatoriensis* gen. et sp. nov., with *Cyclodomus* anamorph, and *Myelosperma parasitica* sp. nov. 1509
Leaf-cutting ants
Microfungi in the fungus gardens of the leaf-cutting ant *Atta cephalotes*: a preliminary study 541
Lentinula edodes
Genetic homogeneity of cultivated strains of shiitake (*Lentinula edodes*) used in China as revealed by the polymerase chain reaction 1393
Leptographium costaricense
Leptographium costaricense sp. nov., a new species from roots of *Talauma sambuensis* from Costa Rica 732
Leptosphaeria
Phylogenetic relationships in some *Leptosphaeria* and *Phaeosphaeria* species 1355
Leptosphaeria maculans
Reexamination of some *Leptosphaeria* and *Phaeosphaeria* species, *Passeriniella obiones* and *Melanomma radicans* 1341
Leucoagaricus gongylophorus
Microfungi in the fungus gardens of the leaf-cutting ant *Atta cephalotes*: a preliminary study 541
Life cycles
Studies on the life-cycle of *Polymyxa betae* in sugar beet roots 203
Linderina pennispora
Atomic force and electron microscopy of sporangial wall microfibrils in *Linderina pennispora* 821
Lindquistia
Podosordaria australiensis sp. nov., a new xylariaceous ascomycete on wallaby dung from northern Australia 1505
Lipids
The characterization of some lipid metabolites of *Gloeophyllum odoratum* grown *in vitro* 23
Distribution of arachidonic acid among lipid classes during culture ageing of five Zygomycete species 113
Literature review
One stop mycology 117
One stop mycology 247
One stop mycology 377
One stop mycology 505
One stop mycology 632
One stop mycology 759
One stop mycology 885
One stop mycology 1010
One stop mycology 1142
One stop mycology 1272
One stop mycology 1401
One stop mycology 1529
Litsea glutinosa
New phytoparasitic hyphomycetes from the Terai belt of Uttar Pradesh, India 610
Maculatifrondis aequatoriensis
Fungi associated with leaf spots of palms. *Maculatifrondis aequatoriensis* gen. et sp. nov., with *Cyclodomus* anamorph, and *Myelosperma parasitica* sp. nov. 1509

Malate dehydrogenase
Interactions of Cs^+ and other monovalent cations (Li^+, Na^+, K^+, Rb^+, $NH4^+$) with K^+-dependent pyruvate kinase and malate dehydrogenase from the yeasts *Rhodotorula rubra* and *Saccharomyces cerevisiae* 449
Malbranchea
Three new species of *Amauroascus* from tropical regions 343
Malva
Infection process of *Colletotrichum gloeosporioides* f. sp. *malvae* on Malvaceae weeds 165
Mangifera indica
Post-harvest spoilage of mango (*Mangifera indica*) by *Botryodiplodia theobromae* 27
Mango
Post-harvest spoilage of mango (*Mangifera indica*) by *Botryodiplodia theobromae* 27
Mangrove fungi
Melaspilea mangrovei sp. nov., from Australian and Hong Kong mangroves 291
Pyrenographa xylographoides from Malaysian and Australian mangroves 580
In vivo and *in vitro* studies of three new species of *Trimmatostroma* associated with sooty spots of the mangrove *Aegiceras corniculatum* in Hong Kong 1489
Marine fungi
A century of British mycology 1
Fungi on *Juncus roemerianus*. New marine and terrestrial ascomycetes 393
Ultrastructure of ascospores of *Tunicatispora australiensis* 1247
Corollospora besarispora, a new arenicolous marine fungus from Malaysia 1259
Massarina carolinensis
Fungi on *Juncus roemerianus*. New marine and terrestrial ascomycetes 393
Mating reactions
Tapesia acuformis as a causal agent of eyespot disease of cereals and evidence for a heterothallic mating system using molecular markers 1219
Evidence for a heterothallic mating system in *Tapesia acuformis* using benomyl sensitivity and esterase isoenzyme profiles 1227
Medical mycology
Medical mycology 1153
Medium composition
A novel medium for the oosporogenesis of *Aphanomyces cochlioides* 936
Melampsora coleosporioides
Morphological and host range studies of *Melampsora* rusts attacking *Salix* species in New Zealand 1163
Melampsora epitea
Morphological and host range studies of *Melampsora* rusts attacking *Salix* species in New Zealand 1163
Melanocarpus
The genus *Melanocarpus* 75
Melanocarpus albomyces
The genus *Melanocarpus* 75
Melanocarpus coprophilus
The genus *Melanocarpus* 75
Melanocarpus oblatus
The genus *Melanocarpus* 75
Melanocarpus thermophilus
The genus *Melanocarpus* 75
Melanomma radicans
Reexamination of some *Leptosphaeria* and *Phaeosphaeria* species, *Passeriniella obiones* and *Melanomma radicans* 1341
Melaspilea mangrovei
Melaspilea mangrovei sp. nov., from Australian and Hong Kong mangroves 291
Membrane structure
Influence of monensin on the composition of the plasmalemma of *Achlya bisexualis* separated by free-flow electrophoresis 551
Metabolism
Trehalase activation induced by nutrients and metabolic inhibitors in *Zygosaccharomyces rouxii* 1440
Metal toxicity
Interactions of Cs^+ and other monovalent cations (Li^+, Na^+, K^+, Rb^+, $NH4^+$) with K^+-dependent pyruvate kinase and malate dehydrogenase from the yeasts *Rhodotorula rubra* and *Saccharomyces cerevisiae* 449
Metarhizium anisopliae
Screening of *Metarhizium* and *Beauveria* spp. conidia with exposure to simulated sunlight and a range of temperatures 31
Metarhizium spore surface antigens are correlated with pathogenicity 57
Distribution and occurrence of four entomogenous fungi in Finland: effect of geographical location, habitat type and soil type 93
Double-stranded RNA and isometric virus-like particles in the entomopathogenic fungus *Metarhizium anisopliae* 1468
Metarhizium viride
Screening of *Metarhizium* and *Beauveria* spp. conidia with exposure to simulated sunlight and a range of temperatures 31
Methyl benzimidazol-2-yl carbamate
Effect of the microtubule inhibitor methyl benzimidazole-2-yl carbamate (MBC) on production and secretion of enzymes in *Aspergillus nidulans* 1375
Miconazole
Adaptation of *Aspergillus niger* to acidic conditions and its relationship to salt stress and miconazole 869
Microfungi
Microfungi in the fungus gardens of the leaf-cutting ant *Atta cephalotes*: a preliminary study 541
Micronectriella nivalis
Seed mycology 385
Mitochondrial DNA
Inheritance of streptomycin and chloramphenicol resistance in *Phytophthora infestans*: evidence for co-segregation of mitochondrial DNA and streptomycin resistance 87
Relatedness of Group 1 species of *Phytophthora* as assessed by randomly amplified polymorphic DNA (RAPDs) and sequences of ribosomal DNA 297
Multiple insertions and deletions determine the size differences between the mitochondrial DNAs of the EAN and NAN races of *Ophiostoma novo-ulmi* 368
Determination of relationships in *Pseudocercosporella herpotrichoides* by analysis of mitochondrial DNA 693
On the species complexes within *Phellinus*: *Fomitiporia* revisited 1459
Mitrophora semilibera
DNA polymorphism in morels: PCR/RFLP analysis of the ribosomal DNA spacers and microsatellite-primed PCR 63
Monacrosporium guizhouense
Nematophagous species of *Monacrosporium* from China 274
Monacrosporium yunnanense
Nematophagous species of *Monacrosporium* from China 274
Monensin
Influence of monensin on the composition of the plasmalemma of *Achlya bisexualis* separated by free-flow electrophoresis 551
Moniliopsis
A comparative taxonomic study of *Rhizoctonia sensu lato* employing morphological, ultrastructural and molecular methods 1117
Monochaetinula terminaliae
A reassessment of some *Discosia* species 287
Monoclonal antibodies
Detection of phialoconidia of *Trichoderma harzianum* in peat-bran by monoclonal antibody-based enzyme-linked immunosorbent assay 217
Production and preliminary characterization of monoclonal antibodies to *Saprolegnia parasitica* 489
Monoicomyces benjaminii
Taxonomic notes on *Monoicomyces* with descriptions of two new species 1179
Monoicomyces ceylonensis
Taxonomic notes on *Monoicomyces* with descriptions of two new species 1179
Morchella angusticeps
DNA polymorphism in morels: PCR/RFLP analysis of the ribosomal DNA spacers and microsatellite-primed PCR 63
Morchella conica
DNA polymorphism in morels: PCR/RFLP analysis of the ribosomal DNA spacers and microsatellite-primed PCR 63
Morchella crassipes
DNA polymorphism in morels: PCR/RFLP analysis of the ribosomal DNA spacers and microsatellite-primed PCR 63
Morchella esculenta
DNA polymorphism in morels: PCR/RFLP analysis of the ribosomal DNA spacers and microsatellite-primed PCR 63
Morphogenesis
Gravimorphogenesis in agarics 257
Purification and characterization of cyclic AMP-dependent protein kinase from *Candida albicans* 625
Morphology
A pluralistic approach in the study of *Pleurotus* species with emphasis on compatibility and physiology of the European morphotaxa 717
A comparative taxonomic study of *Rhizoctonia sensu lato* employing morphological, ultrastructural and molecular methods 1117

Morphological and host range studies of *Melampsora* rusts attacking *Salix* species in New Zealand 1163

Mortierella hyalina

Distribution of arachidonic acid among lipid classes during culture ageing of five Zygomycete species 113

Mucor racemosus

Biotransformation and biosorption of pentachloronitrobenzene by fungal mycelium 948

Mucorales

Dicranophora fulva, a rare mucoraceous fungus growing on boletes 583

Mycelium development

The origins of spatial heterogeneity in vegetative fungal mycelia: a reaction-diffusion model 1473

Mycena rosea

Genetic variability in wild populations of *Mycena rosea* 753

Mycoparasites

Cytochemical and immunocytochemical investigation of the mycoparasitic interaction between *Stachybotrys elegans* and its host *Rhizoctonia solani* (AG-3) 79

Intracellular infection of the cultivated mushroom *Agaricus bisporus* by the mycoparasite *Verticillium fungicola* var. *Fungicola* 1082

Mycorrhizal fungi

Enhanced hyphal growth and spore production of the arbuscular mycorrhizal fungus *Glomus intraradices* in an *in vitro* system in the absence of host roots 328

Regulation of nitrate reductase in the mycorrhizal ascomycete *Wilcoxina mikolae* var *mikolae* 333

In vitro mass-production of the arbuscular mycorrhizal fungus, *Glomus versiforme*, associated with Ri T-DNA transformed carrot roots 1237

Mycorrhizas

Toxic element filtering in *Rhizopogon roseolus*/*Pinus sylvestris* mycorrhizas collected from calamine dumps 16

Mycosphaerella pinodes

Effect of culture medium, light and temperature on sexual and asexual reproduction of four strains of *Mycosphaerella pinodes* 304

Mycotorula schawii

Relationships within the black yeast genus *Exophiala* based on ITS1 sequences 1265

Mycotoxins

Mycotoxins 513

Mycovellosiella atylosii

New species of *Mycovellosiella* and *Cercospora* from India 295

New phytoparasitic hyphomycetes from the Terai belt of Uttar Pradesh, India 610

Mycovellosiella casearíae

New species of *Mycovellosiella* from North-Eastern Uttar Pradesh, India 1333

Mycovellosiella colebrookiae

New species of *Mycovellosiella* from North-Eastern Uttar Pradesh, India 1333

Mycovellosiella fici-cuniae

New species of *Mycovellosiella* from North-Eastern Uttar Pradesh, India 1333

Mycovellosiella litseae

New phytoparasitic hyphomycetes from the Terai belt of Uttar Pradesh, India 610

Mycovellosiella malloti

New species of *Mycovellosiella* associated with foliar spots in Nepal 689

Mycovellosiella mucunae

New species of *Mycovellosiella* associated with foliar spots in Nepal 689

Mycovellosiella viticis

New species of *Mycovellosiella* associated with foliar spots in Nepal 689

Myelosperma parasitica

Fungi associated with leaf spots of palms. *Maculatifrondis aequatoriensis* gen. et sp. nov., with *Cyclodomus* anamorph, and *Myelosperma parasitica* sp. nov. 1509

Myxomycetes

The genus *Clastoderma*: taxonomic evaluation and infraspecific variation of *C. debaryanum* 601

Nadsoniella nigra

Relationships within the black yeast genus *Exophiala* based on ITS1 sequences 1265

Nawawia dendroidea

Nawawia dendroidea, a new synnematous hyphomycete from submerged *Phragmites* in South Africa 810

Nectria haematococca

Use of nitrate non-utilizing mutants to study vegetative incompatibility in *Fusarium solani* (*Nectria haematococca*) especially members of mating populations I, V and VI 1075

Nematode fungi

The role of proteinase VCP1 produced by the nematophagous *Verticillium chlamydosporium* in the infection process of nematode eggs 421

A new species of *Arthrobotrys* from China 527

Identification of nematode-trapping fungi using RFLP analysis of the PCR-amplified ITS region of ribosomal DNA 531

Pathogenicity and development of *Catenaria anguillulae* on some nematodes 1204

A new nematophagous species of *Verticillium* from China 1481

Nematophagous fungi

Nematophagous species of *Monacrosporium* from China 274

Neolecta irregularis

Neolecta, a fruit-body-producing genus of the basal ascomycetes, as shown by SSU and LSU rDNA sequences 199

Neolecta vitellina

Neolecta, a fruit-body-producing genus of the basal ascomycetes, as shown by SSU and LSU rDNA sequences 199

Neotiella microspora

Notes on British species of *Octospora* 175

Neotiella ovilla

Notes on British species of *Octospora* 175

New combinations

The genus *Melanocarpus* 75

Oviascom, a new genus of Otideaceae 102

Delimitation of *Bowdonia* and *Pulvinula* 193

Rhinocladium pulchrum, a new record for Brazil and new combinations in *Rhinocladium* 244

A reassessment of some *Discosia* species 287

Kirramyces phormii comb. nov. from leaves of *Phormium* 373

Biscogniauxia anceps comb. nov. and *Vivantia guadalupensis* gen. et sp. nov. 669

Two leaf pathogens of *Ribes* spp. in North America, *Quasiphloeospora saximontanensis* and *Phloeosporella ribes* 979

Reexamination of some *Leptosphaeria* and *Phaeosphaeria* species, *Passeriniella obiones* and *Melanomma radicans* 1341

Systematics and diversity of the Phyllachoraceae associated with Rosaceae, with a monograph of the genus *Polystigma* 1409

New families

Corynesporasca caryotae gen. et sp. nov. with a *Corynespora* anamorph, and the family Corynesporascaceae 783

New genera

Oviascom, a new genus of Otideaceae 102

Anisostagma rotundata gen. et sp. nov., a lignicolous marine ascomycete from Swanemollen Harbour in Denmark 209

Fungi on *Juncus roemerianus*. New marine and terrestrial ascomycetes 393

Bicornispora exophiala, a new genus and species of the Corneliales and its black yeast anamorph 500

Biscogniauxia anceps comb. nov. and *Vivantia guadalupensis* gen. et sp. nov. 669

Corynesporasca caryotae gen. et sp. nov. with a *Corynespora* anamorph, and the family Corynesporascaceae 783

Two leaf pathogens of *Ribes* spp. in North America, *Quasiphloeospora saximontanensis* and *Phloeosporella ribes* 979

Ramoconidiifera, a new genus of hyphomycetes from Argentina with cheiroid conidia 1337

A new helicosporous hyphomycete collected on *Roystonea regia* in Cuba 1483

Fungi associated with leaf spots of palms. *Maculatifrondis aequatoriensis* gen. et sp. nov., with *Cyclodomus* anamorph, and *Myelosperma parasitica* sp. nov. 1509

New records

Notes on British records of *Lasiobolus* 737

Notes on British species of *Scutellinia* 859

Notes on British species of *Pulvinula*, with two newly recorded species 883

New species

The genus *Melanocarpus* 75

Cryptodiaporthe melanocraspeda sp. nov. the cause of *Banksia coccinea* canker in South-western Australia 159

Arthroderma silverae sp. nov. and *Chrysosporium vallenarense*, keratinophilic fungi from arctic and montane habitats 195

Anisostagma rotundata gen. et sp. nov., a lignicolous marine ascomycete from Swanemollen Harbour in Denmark 209

Dactylella tenuifusaria sp. nov., a rhizopod-capturing hyphomycete 236

Four new species of *Phaeocollybia* 239

Nematophagous species of *Monacrosporium* from China 274

Melaspilea mangrovei sp. nov., from Australian and Hong Kong mangroves 291

New species of *Mycovellosiella* and *Cercospora* from India 295
Relatedness of Group 1 species of *Phytophthora* as assessed by randomly amplified polymorphic DNA (RAPDs) and sequences of ribosomal DNA 297
Three new species of *Amauroascus* from tropical regions 343
Fungi on *Juncus roemerianus*. New marine and terrestrial ascomycetes 393
Ciliochora calabrica sp. nov. isolated from *Fagus sylvatica* in Italy 405
Bicornispora exophiala, a new genus and species of the Comeliales and its black yeast anamorph 500
Dactylaria endophytica sp. nov., an endophyte from leaves of *Prunus lusitanica* 524
A new species of *Arthrobotrys* from China 527
Ceratocystis eucalypti sp. nov., a vascular stain fungus from eucalypts in Australia 571
New phytoparasitic hyphomycetes from the Terai belt of Uttar Pradesh, India 610
Cordyceps myrmecophila-like fungi infecting ants in the leaf litter of tropical forest in Thailand 613
Biscogniauxia anceps comb. nov. and *Vivantia guadalupensis* gen. et sp. nov. 669
Dictyochaeta minutissima sp. nov. on *Coccothrinax miraguama* from cuba 687
New species of *Mycovellosiella* associated with foliar spots in Nepal 689
Two new *Biscogniauxia* species from Papua New Guinea 702
A new species of *Palmicola* from Ecuador 714
Leptographium costaricense sp. nov., a new species from roots of *Talauma sambuensis* from Costa Rica 732
Corynesporasca caryotae gen. et sp. nov. with a *Corynespora* anamorph, and the family Corynesporascaceae 783
Nawawia dendroidea, a new synnematous hyphomycete from submerged *Phragmites* in South Africa 810
Cercospora and similar fungi on *Heliotropium* weeds 815
Rhopalostroma kanyae sp. nov. from Thailand 866
Coleophoma fusiformis sp. nov. from leaves of *Rhododendron*, with notes on the genus *Coleophoma* 943
Cryptophiale multiseptata, sp. nov. from submerged wood in Australia, and keys to the genus 999
A new *Chaetomium* from Thailand 1005
Akanthomyces on spiders in Thailand 1065
Some new species of *Pseudocercospora* from India 1071
Chalara angustata sp. nov. from roots of *Quercus petraea* and *Quercus robur* 1112
New species of *Pseudocercospora* causing leaf spots of forest plants in Nepal 1129
Taxonomic notes on *Monoicomyces* with descriptions of two new species 1179
Two new hyphomycetes from India 1194
Revision of *Septoria* species on *Hebe* and *Veronica* and description of *Kirramyces hebes* sp. nov. 1207
Prosthemium asterosporum sp. nov., a coelomycete on twigs of *Betula pendula* 1243
Corollospora besarispora, a new arenicolous marine fungus from Malaysia 1259
A new species of *Gonatophragmium* from the forest flora of the Indian subcontinent 1263
New species of *Mycovellosiella* from North-Eastern Uttar Pradesh, India 1333
Ramoconidiifera, a new genus of hyphomycetes from Argentina with cheiroid conidia 1337
Brachydesmiella anthostomelloidea, a new species of dematiaceous hyphomycete from Australia 1364
Some new hyphomycetes associated with leaf spots of forest plants in Madhya Pradesh, India 1388
Systematics and diversity of the Phyllachoraceae associated with Rosaceae, with a monograph of the genus *Polystigma* 1409
A new nematophagous species of *Verticillium* from China 1481
A new helicosporous hyphomycete collected on *Roystonea regia* in Cuba 1483
Helicoon gigantisporum, sp. nov. and an amended key to the genus 1485
In vivo and *in vitro* studies of three new species of *Trimmatostroma* associated with sooty spots of the mangrove *Aegiceras corniculatum* in Hong Kong 1489
Podosordaria australiensis sp. nov., a new xylariaceous ascomycete on wallaby dung from northern Australia 1505
Fungi associated with leaf spots of palms. *Maculatifrondis aequatoriensis* gen. et sp. nov., with *Cyclodomus* anamorph, and *Myelosperma parasitica* sp. nov. 1509
Roussoëlla, an ascomycete genus of uncertain relationships with a *Cytoplea* anamorph 1522

Nitrate reductase
Regulation of nitrate reductase in the mycorrhizal ascomycete *Wilcoxina mikolae* var *mikolae* 333
Regulation of nitrate reductase in *Sporisorium reilianum* 838

Nitrate utilisation
Use of nitrate non-utilizing mutants to study vegetative incompatibility in *Fusarium solani* (*Nectria haematococca*) especially members of mating populations I, V and VI 1075

Nitrification
Involvement of yeasts in urea hydrolysis and nitrification in soil amended with a natural source of sucrose 307

Nitrogen nutrition
Regulation of nitrate reductase in *Sporisorium reilianum* 838
Utilization of inorganic and organic nitrogen sources by high-subalpine ectomycorrhizal fungi of *Pinus cembra* in pure culture 989

Numerical analysis
Cortinarius, subgenus *Phlegmacium*, section *Phlegmacium* in Europe. A study of character variation and ecology including a numerical analysis of the *C. argutus* complex 471

Nummularia anceps
Biscogniauxia anceps comb. nov. and *Vivantia guadalupensis* gen. et sp. nov. 669

Obituary : Eggins, H.O.W.
Howard Oliver William Eggins, 1934–1995 : an appreciation 383

Octospora coccinea
Notes on British species of *Octospora* 175

Octospora convexula
Notes on British species of *Octospora* 175

Octospora crozalsiana
Notes on British species of *Octospora* 175

Octospora ithacaensis
Notes on British species of *Octospora* 175

Octospora melina
Notes on British species of *Octospora* 175

Octospora neglecta
Notes on British species of *Octospora* 175

Octospora pilifera
Notes on British species of *Byssonectria* 881

Octospora roxheimii
Notes on British species of *Octospora* 175

Octospora tetraspora
Notes on British species of *Octospora* 175

Octospora vivida
Notes on British species of *Octospora* 175

Oospore formation
A novel medium for the oosporogenesis of *Aphanomyces cochlioides* 936

Oospores
Use of polyclonal antibodies to detect oospores of *Aphanomyces* 495

Ophioglossum reticulatum
Light and electron microscopy of a distinctive VA mycorrhiza in mature sporophytes of *Ophioglossum reticulatum* 843

Ophiostoma novo-ulmi
Multiple insertions and deletions determine the size differences between the mitochondrial DNAs of the EAN and NAN races of *Ophiostoma novo-ulmi* 368
Isolation and characterization of non cerato-ulmin producing laboratory induced mutants of *Ophiostoma novo-ulmi* 661
Differential production of extracellular laccase in the Dutch elm disease pathogens *Ophiostoma ulmi* and *O. novo-ulmi* 1060

Ophiostoma ulmi
Differential production of extracellular laccase in the Dutch elm disease pathogens *Ophiostoma ulmi* and *O. novo-ulmi* 1060

Organic acids
Release of complexing organic acids by rhizosphere fungi as a factor in Norway spruce yellowing in acidic soils 1367

Otideaceae
Oviascom, a new genus of Otideaceae 102

Oviascoma
Oviascom, a new genus of Otideaceae 102

Oviascoma paludosum
Oviascom, a new genus of Otideaceae 102

Paecilomyces farinosus
Distribution and occurrence of four entomogenous fungi in Finland: effect of geographical location, habitat type and soil type 93

Paecilomyces fumosoroseus
Distribution and occurrence of four entomogenous fungi in Finland: effect of geographical location, habitat type and soil type 93

Palmicola filiformis
A new species of *Palmicola* from Ecuador 714
Paraphaeosphaeria pilleata
Fungi on *Juncus roemerianus*. New marine and terrestrial ascomycetes 393
Passeriniella obiones
Reexamination of some *Leptosphaeria* and *Phaeosphaeria* species, *Passeriniella obiones* and *Melanomma radicans* 1341
Pathogenicity
Seed mycology 385
Frequency of isolation and the pathogenicity of *Fusarium* species associated with roots of healthy cotton seedlings 747
Pathogenicity and development of *Catenaria anguillulae* on some nematodes 1204
Paxillus involutus
Polyamine biosynthesis in the ectomycorrhizal fungus *Paxillus involutus* exposed to lead 486
Utilization of inorganic and organic nitrogen sources by high-subalpine ectomycorrhizal fungi of *Pinus cembra* in pure culture 989
Carbon allocation patterns in fungi in the presence of chitin in the external medium 1428
Penicillium
Volatilization of selenite in aqueous medium by a *Penicillium* species 955
Penicillium hirsutum
Changes in conidial morphology and germinability of *Botrytis allii* and *Penicillium hirsutum* in response to low-temperature incubation 591
Penicillium notatum
Purification and some properties of an extracellular dextranase from *Penicillium notatum* 681
Penicillium thomii
A critical examination of SEM ultrastructural features in two *Penicillium thomii* isolates from soil 223
Peniophora
Phylogenetic studies in *Peniophora* 179
Peniophora gigantea
The effect of diffusible metabolites of *Trichoderma harzianum* on *in vitro* interactions between basidiomycete isolates at two different temperature regimes 1454
Pentachloronitrobenzene
Biotransformation and biosorption of pentachloronitrobenzene by fungal mycelium 948
Peptide synthetases
Multiple families of peptide synthetase genes from ergopeptine-producing fungi 429
Perithecial development
The ontogeny of peritheia in *Guignardia bidwellii* 875
pH
Growth and sporulation of *Pyrenophora semeniperda in vitro*: effects of culture media, temperature and pH 311
Adaptation of *Aspergillus niger* to acidic conditions and its relationship to salt stress and miconazole 869
Phaeococcomyces elegans
Relationships within the black yeast genus *Exophiala* based on ITS1 sequences 1265
Phaeocollybia amygdalospora
Four new species of *Phaeocollybia* 239
Phaeocollybia herrerae
Four new species of *Phaeocollybia* 239
Phaeocollybia moseri
Four new species of *Phaeocollybia* 239
Phaeocollybia pseudolugubris
Four new species of *Phaeocollybia* 239
Phaeoramularia heliotropii
Cercospora and similar fungi on *Heliotropium* weeds 815
Phaeosphaeria
Phylogenetic relationships in some *Leptosphaeria* and *Phaeosphaeria* species 1355
Phaeosphaeria eustoma
Reexamination of some *Leptosphaeria* and *Phaeosphaeria* species, *Passeriniella obiones* and *Melanomma radicans* 1341
Phaeosphaeria fuckelii
Reexamination of some *Leptosphaeria* and *Phaeosphaeria* species, *Passeriniella obiones* and *Melanomma radicans* 1341
Phaeosphaeria microscopica
Reexamination of some *Leptosphaeria* and *Phaeosphaeria* species, *Passeriniella obiones* and *Melanomma radicans* 1341
Phaeosphaeria orae-maris
Reexamination of some *Leptosphaeria* and *Phaeosphaeria* species, *Passeriniella obiones* and *Melanomma radicans* 1341
Phaeosphaeria sparsa
Reexamination of some *Leptosphaeria* and *Phaeosphaeria* species, *Passeriniella obiones* and *Melanomma radicans* 1341
Phaeosphaeria typharum
Reexamination of some *Leptosphaeria* and *Phaeosphaeria* species, *Passeriniella obiones* and *Melanomma radicans* 1341
Phaseolus vulgaris
Identification and role of *Pythium* species as glyphosate synergists on bean (*Phaseolus vulgaris*) grown in different soils 971
Phellinus ferreus
On the species complexes within *Phellinus*: *Fomitiporia* revisited 1459
Phellinus igniarius
On the species complexes within *Phellinus*: *Fomitiporia* revisited 1459
Phellinus nigrolimitatus
On the species complexes within *Phellinus*: *Fomitiporia* revisited 1459
Phellinus pini
On the species complexes within *Phellinus*: *Fomitiporia* revisited 1459
Phellinus robustus
On the species complexes within *Phellinus*: *Fomitiporia* revisited 1459
Phellinus torulosus
On the species complexes within *Phellinus*: *Fomitiporia* revisited 1459
Phlebiopsis gigantea
Cellular interaction between the saprotroph *Phlebia gigantea* and non-suberised roots of *Picea abies* 409
Phloeosporella ribis
Two leaf pathogens of *Ribes* spp. in North America, *Quasiphloeospora saximontanensis* and *Phloeosporella ribes* 979
Phosphates
Inhibition of H^+ efflux from *Saccharomyces cerevisiae* by insoluble metal phosphates and protection by calcium and magnesium: inhibitory effects a result of soluble metal cations? 707
Phragmites
Nawawia dendroidea, a new synnematous hyphomycete from submerged *Phragmites* in South Africa 810
Phycomyces blakesleeanus
Roles of extracellular fibrils connecting progametangia in mating of *Phycomyces blakesleeanus* 984
Phyllachora
Spermatial states of fungi are andromorphs 1400
Systematics and diversity of the Phyllachoraceae associated with Rosaceae, with a monograph of the genus *Polystigma* 1409
Phyllachoraceae
Systematics and diversity of the Phyllachoraceae associated with Rosaceae, with a monograph of the genus *Polystigma* 1409
Phylogeny
Ribosomal DNA analysis for resolution of genotypic classes of *Pleurotus* 143
Phylogenetic studies in *Peniophora* 179
Neolecta, a fruit-body-producing genus of the basal ascomycetes, as shown by SSU and LSU rDNA sequences 199
Phylogenetic relationships in some *Leptosphaeria* and *Phaeosphaeria* species 1355
Physiology
Effect of culture medium, light and temperature on sexual and asexual reproduction of four strains of *Mycosphaerella pinodes* 304
A pluralistic approach in the study of *Pleurotus* species with emphasis on compatibility and physiology of the European morphotaxa 717
Phytophthora
Evolutionary relationships among *Phytophthora* species deduced from rDNA sequence analysis 437
Phytophthora cactorum
Relatedness of Group 1 species of *Phytophthora* as assessed by randomly amplified polymorphic DNA (RAPDs) and sequences of ribosomal DNA 297
Phytophthora cinnamomi
Synthesis of zoospore peripheral vesicles during sporulation of *Phytophthora cinnamomi* 39
Carbon allocation patterns in fungi in the presence of chitin in the external medium 1428
Phytophthora clandestina
Relatedness of Group 1 species of *Phytophthora* as assessed by randomly amplified polymorphic DNA (RAPDs) and sequences of ribosomal DNA 297
Phytophthora idaei
Relatedness of Group 1 species of *Phytophthora* as assessed by randomly amplified polymorphic DNA (RAPDs) and sequences of ribosomal DNA 297
Phytophthora infestans
Inheritance of streptomycin and chloramphenicol resistance in *Phytophthora*

infestans: evidence for co-segregation of mitochondrial DNA and streptomycin resistance 87
Phytophthora iranica
Relatedness of Group 1 species of *Phytophthora* as assessed by randomly amplified polymorphic DNA (RAPDs) and sequences of ribosomal DNA 297
Phytophthora parasitica
Effects of calcium on germination and further zoospore release from zoospore cysts of *Phytophthora parasitica* 1498
Phytophthora pseudotsugae
Relatedness of Group 1 species of *Phytophthora* as assessed by randomly amplified polymorphic DNA (RAPDs) and sequences of ribosomal DNA 297
Phytophthora sojae
Evolutionary relationships among *Phytophthora* species deduced from rDNA sequence analysis 1218
Picea abies
The characterization of some lipid metabolites of *Gloeophyllum odoratum* grown *in vitro* 23
Cellular interaction between the saprotroph *Phlebia gigantea* and non-suberised roots of *Picea abies* 409
Release of complexing organic acids by rhizosphere fungi as a factor in Norway spruce yellowing in acidic soils 1367
Pinus
Genetic differentiation within the European race of *Gremmeniella abietina* 49
Population structure of the pitch canker pathogen, *Fusarium subglutinans* f. sp. *pini*, in California 850
Pinus cembra
Utilization of inorganic and organic nitrogen sources by high-subalpine ectomycorrhizal fungi of *Pinus cembra* in pure culture 989
Pinus sylvestris
Toxic element filtering in *Rhizopogon roseolus*/*Pinus sylvestris* mycorrhizas collected from calamine dumps 16
Pisolithus tinctorius
Carbon allocation patterns in fungi in the presence of chitin in the external medium 1428
Plasmodiophora brassicae
Evidence for the growth of *Plasmodiophora brassicae in vitro* 535
Efficient root infection with single resting spores of *Plasmodiophora brassicae* 855
Plectophomella
Manipulation of infection levels of horizontally transmitted fungal endophytes in the field 827
Plectosphaera
Systematics and diversity of the Phyllachoraceae associated with Rosaceae, with a monograph of the genus *Polystigma* 1409
Pleomorphism
Chitinase activities from yeast and hyphal cells of *Candida albicans* 321
Pleurotus
Ribosomal DNA analysis for resolution of genotypic classes of *Pleurotus* 143
A pluralistic approach in the study of *Pleurotus* species with emphasis on compatibility and physiology of the European morphotaxa 717
Pleurotus ostreatus
An epitype specimen for *Pleurotus ostreatus* 229
Detection of highly productive strains of *Pleurotus ostreatus* by their tolerance to 2-deoxy-D-glucose in starch-based media 455
Podosordaria australiensis
Podosordaria australiensis sp. nov., a new xylariaceous ascomycete on wallaby dung from northern Australia 1505
Polyamines
Polyamine biosynthesis in the ectomycorrhizal fungus *Paxillus involutus* exposed to lead 486
Effect of polyamines and polyamine biosynthesis inhibitors on spore germination and hyphal growth of *Glomus mosseae* 597
Polyclonal antibodies
Use of polyclonal antibodies to detect oospores of *Aphanomyces* 495
Polymerase chain reaction
DNA polymorphism in morels: PCR/RFLP analysis of the ribosomal DNA spacers and microsatellite-primed PCR 63
Use of RAPD analysis to trace the origin of the weevil pathogen *Zoophthora phytonomi* in North America 349
PCR-based molecular discrimination of *Verticillium chlamydosporium* isolates 801
Polymyxa betae
Studies on the life-cycle of *Polymyxa betae* in sugar beet roots 203
Polystigma
Systematics and diversity of the Phyllachoraceae associated with Rosaceae, with a monograph of the genus *Polystigma* 1409
Polystigma amygdalinum
Systematics and diversity of the Phyllachoraceae associated with Rosaceae, with a monograph of the genus *Polystigma* 1409
Post harvest deterioration
Post-harvest spoilage of mango (*Mangifera indica*) by *Botryodiplodia theobromae* 27
Powdery mildews
An experimental system for characterizing isolates of *Uncinula necator* 675
Presidential address
The xylariaceous way of life 897
Prosthemium asterosporum
Prosthemium asterosporum sp. nov., a coelomycete on twigs of *Betula pendula* 1243
Protein kinase
Purification and characterization of cyclic AMP-dependent protein kinase from *Candida albicans* 625
Protoplasts
Characterization of the heat shock response in protoplasts of *Aspergillus nidulans* 1325
Prunus lusitanica
Dactylaria endophytica sp. nov., an endophyte from leaves of *Prunus lusitanica* 524
Pseudocercospora colebrookiae
Some new species of *Pseudocercospora* from India 1071
Pseudocercospora embeliicola
Some new hyphomycetes associated with leaf spots of forest plants in Madhya Pradesh, India 1388
Pseudocercospora gentianacearum
Some new species of *Pseudocercospora* from India 1071
Pseudocercospora hibiscigena
New species of *Pseudocercospora* causing leaf spots of forest plants in Nepal 1129
Pseudocercospora justiciicola
New species of *Pseudocercospora* causing leaf spots of forest plants in Nepal 1129
Pseudocercospora lecythidacearum
Some new hyphomycetes associated with leaf spots of forest plants in Madhya Pradesh, India 1388
Pseudocercospora meliacearum
Some new hyphomycetes associated with leaf spots of forest plants in Madhya Pradesh, India 1388
Pseudocercospora pileae
New species of *Pseudocercospora* causing leaf spots of forest plants in Nepal 1129
Pseudocercospora veronicicola
Revision of *Septoria* species on *Hebe* and *Veronica* and description of *Kirramyces hebes* sp. nov. 1207
Pseudocercospora xeromphina
Some new species of *Pseudocercospora* from India 1071
Pseudocercosporella herpotrichoides
Determination of relationships in *Pseudocercosporella herpotrichoides* by analysis of mitochondrial DNA 693
Pullularia prototropha
Relationships within the black yeast genus *Exophiala* based on ITS1 sequences 1265
Pulvinula
Delimitation of *Bouvonia* and *Pulvinula* 193
Pulvinula alba
Notes on British species of *Pulvinula*, with two newly recorded species 883
Pulvinula carbonaria
Notes on British species of *Pulvinula*, with two newly recorded species 883
Pulvinula cinnabarina
Notes on British species of *Pulvinula*, with two newly recorded species 883
Pulvinula constellatio
Notes on British species of *Pulvinula*, with two newly recorded species 883
Pulvinula convexella
Notes on British species of *Pulvinula*, with two newly recorded species 883
Pulvinula miltina
Notes on British species of *Pulvinula*, with two newly recorded species 883

Pulvinula ovalispora
Notes on British species of *Pulvinula*, with two newly recorded species 883
Pycnidial development
Development of conidiomata in *Botryodiplodia theobromae* 1383
Pyrenographa xylographoides
Pyrenographa xylographoides from Malaysian and Australian mangroves 580
Pyrenopeziza brassicae
The use of AFLP fingerprinting for the detection of genetic variation in fungi 1107
Pyrenophora graminis
Seed mycology 385
Pyrenophora semeniperda
Growth and sporulation of *Pyrenophora semeniperda in vitro*: effects of culture media, temperature and pH 311
Pyruvate kinase
Interactions of Cs^+ and other monovalent cations (Li^+, Na^+, K^+, Rb^+, $NH4^+$) with K^+-dependent pyruvate kinase and malate dehydrogenase from the yeasts *Rhodotorula rubra* and *Saccharomyces cerevisiae* 449
Pythium
Identification and role of *Pythium* species as glyphosate synergists on bean (*Phaseolus vulgaris*) grown in different soils 971
Assessment of host specificity among different species of glyphosate synergistic *Pythium* 1445
Quasiphloeospora saximontanensis
Two leaf pathogens of *Ribes* spp. in North America, *Quasiphloeospora saximontanensis* and *Phloeosporella ribes* 979
Quercus
Chalara angustata sp. nov. from roots of *Quercus petraea* and *Quercus robur* 1112
Quercus ilex
Factors affecting yield of *Tuber melanosporum* in a *Quercus ilex* plantation in southern France 1176
Ramoconidiifera
Ramoconidiifera, a new genus of hyphomycetes from Argentina with cheiroid conidia 1337
Ramoconidiifera verrucosa
Ramoconidiifera, a new genus of hyphomycetes from Argentina with cheiroid conidia 1337
Random amplified polymorphic DNA
Genetic differentiation within the European race of *Gremmeniella abietina* 49
Assessment of genetic variation within *Chondrostereum purpureum* from Quebec by random amplified polymorphic DNA analysis 151
Relatedness of Group 1 species of *Phytophthora* as assessed by randomly amplified polymorphic DNA (RAPDs) and sequences of ribosomal DNA 297
Use of RAPD analysis to trace the origin of the weevil pathogen *Zoophthora phytonomi* in North America 349
Infraspecific variation in two species of aquatic hyphomycetes assessed by RAPD analysis 831
Tapesia acuformis as a causal agent of eyespot disease of cereals and evidence for a heterothallic mating system using molecular markers 1219
Genetic homogeneity of cultivated strains of shiitake (*Lentinula edodes*) used in China as revealed by the polymerase chain reaction 1393
Reaction-diffusion model
The origins of spatial heterogeneity in vegetative fungal mycelia: a reaction-diffusion model 1473
Recombinant DNA
Effect of culture conditions and induction strategies on production of human interleukin-6 by a recombinant *Aspergillus nidulans* strain 356
Restriction endonuclease fragment maps
Multiple insertions and deletions determine the size differences between the mitochondrial DNAs of the EAN and NAN races of *Ophiostoma novo-ulmi* 368
Restriction fragment length polymorphism
DNA polymorphism in morels: PCR/RFLP analysis of the ribosomal DNA spacers and microsatellite-primed PCR 63
Restriction fragment length Polymorphism
Identification of nematode-trapping fungi using RFLP analysis of the PCR-amplified ITS region of ribosomal DNA 531
Restriction fragment length polymorphism
Identification and role of *Pythium* species as glyphosate synergists on bean (*Phaseolus vulgaris*) grown in different soils 971
A comparative taxonomic study of *Rhizoctonia sensu lato* employing morphological, ultrastructural and molecular methods 1117
Detection and identification of *Laccaria* species using a repeated DNA sequence from *Laccaria proxima* 1515
Review
A century of British mycology 1
Hyphal analysis of basidiomata 129
Seed mycology 385
Mycotoxins 513
Spore dispersal – its role in ecology and disease: the British contribution to fungal aerobiology 641
The ecology of arbuscular mycorrhizas: a look back into the 20th century and a peek into the 21st 769
Trichoderma: a review of biology and systematics of the genus 923
Ascomycete genetics: the part played by ascus segregation phenomena in our understanding of the mechanisms of recombination 1025
Medical mycology 1153
Ascus and ascospore morphogenesis 1281
Rhinocladium abietina
Rhinocladium pulchrum, a new record for Brazil and new combinations in *Rhinocladium* 244
Rhinocladium mangenotii
Rhinocladium pulchrum, a new record for Brazil and new combinations in *Rhinocladium* 244
Rhinocladium pulchrum
Rhinocladium pulchrum, a new record for Brazil and new combinations in *Rhinocladium* 244
Rhizoctonia
A comparative taxonomic study of *Rhizoctonia sensu lato* employing morphological, ultrastructural and molecular methods 1117
Rhizoctonia solani
Cytochemical and immunocytochemical investigation of the mycoparasitic interaction between *Stachybotrys elegans* and its host *Rhizoctonia solani* (AG-3) 79
DNA fingerprinting probe specific to isolates of *Rhizoctonia solani* AG-3 467
Heterogeneity in electrophoretic karyotype within and between anastomosis groups of *Rhizoctonia solani* 789
Rhizopod-trapping fungi
Dactylella tenuifusaria sp. nov., a rhizopod-capturing hyphomycete 236
Rhizopogon
Utilization of inorganic and organic nitrogen sources by high-subalpine ectomycorrhizal fungi of *Pinus cembra* in pure culture 989
Rhizopogon roseolus
Toxic element filtering in *Rhizopogon roseolus*/*Pinus sylvestris* mycorrhizas collected from calamine dumps 16
Rhizopus arrhizus
Biotransformation and biosorption of pentachloronitrobenzene by fungal mycelium 948
Rhizosphere fungi
Release of complexing organic acids by rhizosphere fungi as a factor in Norway spruce yellowing in acidic soils 1367
Rhodotorula rubra
Interactions of Cs^+ and other monovalent cations (Li^+, Na^+, K^+, Rb^+, $NH4^+$) with K^+-dependent pyruvate kinase and malate dehydrogenase from the yeasts *Rhodotorula rubra* and *Saccharomyces cerevisiae* 449
Rhopalostroma kanyae
Rhopalostroma kanyae sp. nov. from Thailand 866
Ribes
Two leaf pathogens of *Ribes* spp. in North America, *Quasiphloeospora saximontanensis* and *Phloeosporella ribes* 979
Ribosomal DNA
Ribosomal DNA analysis for resolution of genotypic classes of *Pleurotus* 143
Phylogenetic studies in *Peniophora* 179
Neolecta, a fruit-body-producing genus of the basal ascomycetes, as shown by SSU and LSU rDNA sequences 199
Evolutionary relationships among *Phytophthora* species deduced from rDNA sequence analysis 437
Identification of nematode-trapping fungi using RFLP analysis of the PCR-amplified ITS region of ribosomal DNA 531
Variability of nuclear and mitochondrial ribosomal DNA of a truffle species (*Tuber aestivum*) 547
Evolutionary relationships among *Phytophthora* species deduced from rDNA sequence analysis 1218
Relationships within the black yeast genus *Exophiala* based on ITS1 sequences 1265
Variations in symbiotic efficiency, phenotypic characters and ploidy level among different isolates of the ectomycorrhizal basidiomycete *Laccaria bicolor* strain S 238 1315

Phylogenetic relationships in some *Leptosphaeria* and *Phaeosphaeria* species 1355
Genetic homogeneity of cultivated strains of shiitake (*Lentinula edodes*) used in China as revealed by the polymerase chain reaction 1393
Ribosomal RNA
Group I introns in 26S rRNA genes of *Gaeumannomyces graminis* as possible indicators of host specificity of *G. graminis* varieties 337
PCR-based molecular discrimination of *Verticillium chlamydosporium* isolates 801
Infraspecific variation in two species of aquatic hyphomycetes assessed by RAPD analysis 831
Rogergoosiella roystoneicola
A new helicosporous hyphomycete collected on *Roystonea regia* in Cuba 1483
Root fungi
Cellular interaction between the saprotroph *Phlebia gigantea* and non-suberised roots of *Picea abies* 409
Use of polyclonal antibodies to detect oospores of *Aphanomyces* 495
Evidence for the growth of *Plasmodiophora brassicae in vitro* 535
Leptographium costaricense sp. nov., a new species from roots of *Talauma sambuensis* from Costa Rica 732
Frequency of isolation and the pathogenicity of *Fusarium* species associated with roots of healthy cotton seedlings 747
Efficient root infection with single resting spores of *Plasmodiophora brassicae* 855
Quantification of *Gaeumannomyces graminis* var. *tritici* in infected roots and soil using slot-blot hybridization 962
Identification and role of *Pythium* species as glyphosate synergists on bean (*Phaseolus vulgaris*) grown in different soils 971
Chalara angustata sp. nov. from roots of *Quercus petraea* and *Quercus robur* 1112
An ultrastructural study of the interaction between *Spongospora subterranea* f. sp. *nasturtii* and watercress roots 1431
Rorippa nasturtium-aquaticum
An ultrastructural study of the interaction between *Spongospora subterranea* f. sp. *nasturtii* and watercress roots 1431
Rosaceae
Systematics and diversity of the Phyllachoraceae associated with Rosaceae, with a monograph of the genus *Polystigma* 1409
Roussoëlla hysterioides
Roussoëlla, an ascomycete genus of uncertain relationships with a *Cytoplea* anamorph 1522
Rumen fungi
A century of British mycology 1
Saccharomyces cerevisiae
Interactions of Cs^+ and other monovalent cations (Li^+, Na^+, K^+, Rb^+, $NH4^+$) with K^+-dependent pyruvate kinase and malate dehydrogenase from the yeasts *Rhodotorula rubra* and *Saccharomyces cerevisiae* 449
Inhibition of H^+ efflux from *Saccharomyces cerevisiae* by insoluble metal phosphates and protection by calcium and magnesium: inhibitory effects a result of soluble metal cations? 707
Salix
Morphological and host range studies of *Melampsora* rusts attacking *Salix* species in New Zealand 1163
Saprolegnia parasitica
Production and preliminary characterization of monoclonal antibodies to *Saprolegnia parasitica* 489
Sarcinomyces phaeomuriformis
Relationships within the black yeast genus *Exophiala* based on ITS1 sequences 1265
Scanning electron microscopy
Morphological and host range studies of *Melampsora* rusts attacking *Salix* species in New Zealand 1163
Scanning probe microscopy
Atomic force and electron microscopy of sporangial wall microfibrils in *Linderina pennispora* 821
Schizophyllum commune
Characterization of a novel phenylalanine-specific aminopeptidase from *Schizophyllum commune* 462
Sclerotial germination
Ultrastructural and histochemical studies on mycelial germination of sclerotia of *Sclerotinia minor* 561
Sclerotinia minor
Ultrastructural and histochemical studies on mycelial germination of sclerotia of *Sclerotinia minor* 561
Scutellinia ampulacea
Notes on British species of *Scutellinia* 859
Scutellinia asperior
Notes on British species of *Scutellinia* 859
Scutellinia decipiens
Notes on British species of *Scutellinia* 859
Scutellinia erinacea
Notes on British species of *Scutellinia* 859
Scutellinia hirta
Notes on British species of *Scutellinia* 859
Scutellinia kerguelensis
Notes on British species of *Scutellinia* 859
Scutellinia legaliae
Notes on British species of *Scutellinia* 859
Scutellinia macrospora
Notes on British species of *Scutellinia* 859
Scutellinia mirabilis
Notes on British species of *Scutellinia* 859
Scutellinia olivasens
Notes on British species of *Scutellinia* 859
Scutellinia patagonica
Notes on British species of *Scutellinia* 859
Scutellinia scutellata* var. *cervorum
Notes on British species of *Scutellinia* 859
Scutellinia superba
Notes on British species of *Scutellinia* 859
Scutellinia trechispora
Notes on British species of *Scutellinia* 859
Scutellinia umbrorum
Notes on British species of *Scutellinia* 859
Secondary metabolites
Mycotoxins 513
Seed fungi
Seed mycology 385
Selenium volatilization
Volatilization of selenite in aqueous medium by a *Penicillium* species 955
SEM
A critical examination of SEM ultrastructural features in two *Penicillium thomii* isolates from soil 223
Septoria exotica
Revision of *Septoria* species on *Hebe* and *Veronica* and description of *Kirramyces hebes* sp. nov. 1207
Septoria veronicae
Revision of *Septoria* species on *Hebe* and *Veronica* and description of *Kirramyces hebes* sp. nov. 1207
Septoria veronicicola
Revision of *Septoria* species on *Hebe* and *Veronica* and description of *Kirramyces hebes* sp. nov. 1207
Sepultaria arenicola
Notes on British species of *Geopora* 72
Sepultaria geaster
Notes on British species of *Geopora* 72
Sepultaria semiimmersa
Notes on British species of *Geopora* 72
Sexual reproduction
Effect of culture medium, light and temperature on sexual and asexual reproduction of four strains of *Mycosphaerella pinodes* 304
Sivanesania
Validation of *Sivanesania* 1106
Solenopsis invicta
Yeast biota of the red imported fire ant 740
Somatic recombination
Somatic recombination in the cultivated mushroom *Agaricus bisporus* 188
Spermatia
Spermatial states of fungi are andromorphs 1400
Spiders
Akanthomyces on spiders in Thailand 1065
Spiranthes sinensis
Cytochemical localization of adenylate cyclase activity in the symbiotic protocorms of *Spiranthes sinensis* 105
Spongospora subterranea
An ultrastructural study of the interaction between *Spongospora subterranea* f. sp. *nasturtii* and watercress roots 1431
Spore dispersal
Spore dispersal – its role in ecology and disease: the British contribution to fungal aerobiology 641
Sporisorium reilianum
Regulation of nitrate reductase in *Sporisorium reilianum* 838
Sporothrix cyanescens
Biotransformation and biosorption of pentachloronitrobenzene by fungal mycelium 948

Sporotrichum gougerotii
Relationships within the black yeast genus *Exophiala* based on ITS1 sequences 1265
Sporulation
Effect of culture medium, light and temperature on sexual and asexual reproduction of four strains of *Mycosphaerella pinodes* 304
Enhanced hyphal growth and spore production of the arbuscular mycorrhizal fungus *Glomus intraradices* in an *in vitro* system in the absence of host roots 328
Stachybotrys elegans
Cytochemical and immunocytochemical investigation of the mycoparasitic interaction between *Stachybotrys elegans* and its host *Rhizoctonia solani* (AG-3) 79
Stenella pluriseptа
Two new hyphomycetes from India 1194
Stereum sanguinolentum
The effect of diffusible metabolites of *Trichoderma harzianum* on *in vitro* interactions between basidiomycete isolates at two different temperature regimes 1454
Sterols
The characterization of some lipid metabolites of *Gloeophyllum odoratum* grown *in vitro* 23
Streptomycin resistance
Inheritance of streptomycin and chloramphenicol resistance in *Phytophthora infestans*: evidence for co-segregation of mitochondrial DNA and streptomycin resistance 87
Suillus bovinus
Dicranophora fulva, a rare mucoraceous fungus growing on boletes 583
Suillus placidus
Utilization of inorganic and organic nitrogen sources by high-subalpine ectomycorrhizal fungi of *Pinus cembra* in pure culture 989
Suillus variegatus
Carbon allocation patterns in fungi in the presence of chitin in the external medium 1428
Symbiosis
Variations in symbiotic efficiency, phenotypic characters and ploidy level among different isolates of the ectomycorrhizal basidiomycete *Laccaria bicolor* strain S 238 1315
Syncephalastrum racemosus
Distribution of arachidonic acid among lipid classes during culture ageing of five Zygomycete species 113
Systematics
Ribosomal DNA analysis for resolution of genotypic classes of *Pleurotus* 143
The genus *Clastoderma*: taxonomic evaluation and infraspecific variation of *C. debaryanum* 601
The xylariaceous way of life 897
Trichoderma: a review of biology and systematics of the genus 923
Take-all disease
Group I introns in 26S rRNA genes of *Gaeumannomyces graminis* as possible indicators of host specificity of *G. graminis* varieties 337
Quantification of *Gaeumannomyces graminis* var. *tritici* in infected roots and soil using slot-blot hybridization 962
Talauma sambuensis
Leptographium costaricense sp. nov., a new species from roots of *Talauma sambuensis* from Costa Rica 732
Tapesia acuformis
Tapesia acuformis as a causal agent of eyespot disease of cereals and evidence for a heterothallic mating system using molecular markers 1219
Evidence for a heterothallic mating system in *Tapesia acuformis* using benomyl sensitivity and esterase isoenzyme profiles 1227
Tapesia yallundae
Determination of relationships in *Pseudocercosporella herpotrichoides* by analysis of mitochondrial DNA 693
Taxonomy
A century of British mycology 1
Teliospore germination
Different patterns of teliospore germination in *Ustilago trichophora* 418
Temperature
Growth and sporulation of *Pyrenophora semeniperda in vitro*: effects of culture media, temperature and pH 311
Changes in conidial morphology and germinability of *Botrytis allii* and *Penicillium hirsutum* in response to low-temperature incubation 591
Thalassogena sphaerica
Anisostagma rotundata gen. et sp. nov., a lignicolous marine ascomycete from Swanemollen Harbour in Denmark 209
Thamnidium elegans
Distribution of arachidonic acid among lipid classes during culture ageing of five Zygomycete species 113
Tilletia setaria
Two kinds of ballistoconidia in the anamorph of *Tilletia setaria* 173
Torula bergeri
Relationships within the black yeast genus *Exophiala* based on ITS1 sequences 1265
Trehalase
Trehalase activation induced by nutrients and metabolic inhibitors in *Zygosaccharomyces rouxii* 1440
Trichoderma
Trichoderma: a review of biology and systematics of the genus 923
Trichoderma harzianum
Detection of phialoconidia of *Trichoderma harzianum* in peat-bran by monoclonal antibody-based enzyme-linked immunosorbent assay 217
Carbon allocation patterns in fungi in the presence of chitin in the external medium 1428
The effect of diffusible metabolites of *Trichoderma harzianum* on *in vitro* interactions between basidiomycete isolates at two different temperature regimes 1454
Trichophaea albospadicea
Notes on British species of *Trichophaea* 798
Trichophaea hybrida
Notes on British species of *Trichophaea* 798
Trichophaea leucothecioides
Notes on British species of *Trichophaea* 798
Trichophaea paludosa
Notes on British species of *Trichophaea* 798
Trichophaea pseudogregaria
Notes on British species of *Trichophaea* 798
Trichophaea saccata
Notes on British species of *Trichophaea* 798
Trichophaea sublivida
Notes on British species of *Trichophaea* 798
Trimmatostroma botryoforme
In vivo and *in vitro* studies of three new species of *Trimmatostroma* associated with sooty spots of the mangrove *Aegiceras corniculatum* in Hong Kong 1489
Trimmatostroma sarciniforme
In vivo and *in vitro* studies of three new species of *Trimmatostroma* associated with sooty spots of the mangrove *Aegiceras corniculatum* in Hong Kong 1489
Trimmatostroma variabile
In vivo and *in vitro* studies of three new species of *Trimmatostroma* associated with sooty spots of the mangrove *Aegiceras corniculatum* in Hong Kong 1489
Triterpenes
The characterization of some lipid metabolites of *Gloeophyllum odoratum* grown *in vitro* 23
Tuber aestivum
Variability of nuclear and mitochondrial ribosomal DNA of a truffle species (*Tuber aestivum*) 547
Tuber melanosporum
Factors affecting yield of *Tuber melanosporum* in a *Quercus ilex* plantation in southern France 1176
Tunicatispora australiensis
Ultrastructure of ascospores of *Tunicatispora australiensis* 1247
Ultrastructure
Cytochemical and immunocytochemical investigation of the mycoparasitic interaction between *Stachybotrys elegans* and its host *Rhizoctonia solani* (AG-3) 79
A critical examination of SEM ultrastructural features in two *Penicillium thomii* isolates from soil 223
Ultrastructural and histochemical studies on mycelial germination of sclerotia of *Sclerotinia minor* 561
Atomic force and electron microscopy of sporangial wall microfibrils in *Linderina pennispora* 821
Light and electron microscopy of a distinctive VA mycorrhiza in mature sporophytes of *Ophioglossum reticulatum* 843
Roles of extracellular fibrils connecting progametangia in mating of *Phycomyces blakesleeanus* 984
Ultrastructure of ascospores of *Tunicatispora australiensis* 1247
An ultrastructural study of the interaction between *Spongospora subterranea* f. sp. *nasturtii* and watercress roots 1431

Uncinula necator
An experimental system for characterizing isolates of *Uncinula necator* 675
Urea hydrolysis
Involvement of yeasts in urea hydrolysis and nitrification in soil amended with a natural source of sucrose 307
Ustilago segetum
Seed mycology 385
Ustilago trichophora
Different patterns of teliospore germination in *Ustilago trichophora* 418
Validation
Validation of *Sivanesania* 1106
Vascular pathogens
Ceratocystis eucalypti sp. nov., a vascular stain fungus from eucalypts in Australia 571
Vegetative compatibility
Distribution and diversity of vegetative compatibility types in subpopulations of *Cryphonectria parasitica* in Italy 1087
Use of nitrate non-utilizing mutants to study vegetative incompatibility in *Fusarium solani* (*Nectria haematococca*) especially members of mating populations I, V and VI 1075
Vegetative compatibility Groups
Population structure of the pitch canker pathogen, *Fusarium subglutinans* f. sp. *pini*, in California 850
Vermisporium tenzingii
A reassessment of some *Discosia* species 287
Verpa conica
DNA polymorphism in morels: PCR/RFLP analysis of the ribosomal DNA spacers and microsatellite-primed PCR 63
Verticillium chlamydosporium
The role of proteinase VCP1 produced by the nematophagous *Verticillium chlamydosporium* in the infection process of nematode eggs 421
PCR-based molecular discrimination of *Verticillium chlamydosporium* isolates 801
Verticillium fungicola
Intracellular infection of the cultivated mushroom *Agaricus bisporus* by the mycoparasite *Verticillium fungicola* var. *Fungicola* 1082
Verticillium sinense
A new nematophagous species of *Verticillium* from China 1481
Vesicles
Synthesis of zoospore peripheral vesicles during sporulation of *Phytophthora cinnamomi* 39
Vesicular-arbuscular mycorrhizas
Light and electron microscopy of a distinctive VA mycorrhiza in mature sporophytes of *Ophioglossum reticulatum* 843
Vigna unguiculata
Infection process and identity of hemibiotrophic anthracnose fungus (*Colletotrichum destructivum*) from cowpea (*Vigna unguiculata*) 1133
Virus-like particles
Double-stranded RNA and isometric virus-like particles in the entomopathogenic fungus *Metarhizium anisopliae* 1468
Vitis vinifera
An experimental system for characterizing isolates of *Uncinula necator* 675
The ontogeny of peritheia in *Guignardia bidwellii* 875
Vivantia guadalupensis
Biscogniauxia anceps comb. nov. and *Vivantia guadalupensis* gen. et sp. nov. 669
Wall building
Carbon allocation patterns in fungi in the presence of chitin in the external medium 1428
Wilcoxina mikolae
Regulation of nitrate reductase in the mycorrhizal ascomycete *Wilcoxina mikolae* var *mikolae* 333
Wood decay fungi
Characterization of a novel phenylalanine-specific aminopeptidase from *Schizophyllum commune* 462
The xylariaceous way of life 897
Xylariaceae
Rhopalostroma kanyae sp. nov. from Thailand 866
The xylariaceous way of life 897
Yeasts
Involvement of yeasts in urea hydrolysis and nitrification in soil amended with a natural source of sucrose 307
Zoophthora phytonomi
Use of RAPD analysis to trace the origin of the weevil pathogen *Zoophthora phytonomi* in North America 349
Zoospore germination
Effects of calcium on germination and further zoospore release from zoospore cysts of *Phytophthora parasitica* 1498
Zoospore release
Effects of calcium on germination and further zoospore release from zoospore cysts of *Phytophthora parasitica* 1498
Zoospore structure
Synthesis of zoospore peripheral vesicles during sporulation of *Phytophthora cinnamomi* 39
Zygosaccharomyces rouxii
Trehalase activation induced by nutrients and metabolic inhibitors in *Zygosaccharomyces rouxii* 1440
Zygospore formation
Roles of extracellular fibrils connecting progametangia in mating of *Phycomyces blakesleeanus* 984
